Important Notice

The information contained in this Calendar is correct at the time of publication. Certain information, and in particular that relating to fees, admission regulations and papers, is subject to a continuous process of review. The University therefore reserves the right to change its policies, procedures, statutes, regulations, papers and any other content of this Calendar at any time. Any alterations and amendments to this Calendar will be reflected in the web version, which is the authoritative version.

Unless specifically stated otherwise, all policies, procedures, statutes and regulations printed in this Calendar are effective from 1 January 2008 and supersede those in any prior Calendar. Matters concerning enrolment and examinations apply to the academic year for which the student is formally enrolled for the relevant paper(s).

While in most cases there are no specific time limits for completing qualifications, over the years the degree structures and papers may change in response to developments in their areas. Occasionally core papers or requirements are changed or discontinued.

Candidates will have their overall programmes of study confirmed as meeting the requirements for the award of a qualification on the basis of the relevant regulations in the Calendar in their final year of study. However, if the regulations have changed since the candidate first enrolled for the qualification, the relevant Dean may decide in individual cases, under the [Personal Programmes of Study Regulations](#) and the [Delegation of Powers Statute 2006](#), to vary or waive particular requirements. Students who are uncertain about whether papers passed under previous regulations will meet current requirements should consult the relevant Chairperson of Department or Dean.

Detailed transitional regulations will be printed in the Calendar from time to time if substantial changes are made to the structure of a particular qualification.

Qualification Regulations

Contents

[Admission, Enrolment
and Fees](#)

These regulations apply to candidates beginning their studies in 2008. Candidates who first enrolled in a qualification prior to 2008 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Dean of the Faculty or School of Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major subject or specified programme during the candidate's absence, the Dean may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

These regulations apply to candidates beginning their studies in 2008. Candidates who first enrolled in a qualification prior to 2008 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. 2. The Vice-Chancellor may, in consultation with the relevant Pro Vice-Chancellor, Head of School, Director or equivalent, give such direction or make such provision as they think fit where it is shown to their satisfaction that an unusual and particular case has arisen concerning a student's enrolment, in consideration of which no relevant provisions or regulations currently apply.

Personal Programmes of Study Regulations

These regulations apply to candidates beginning their studies in 2024. Candidates who first enrolled in a qualification prior to 2024 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

1. Title

These are the Personal Programmes of Study Regulations 2012.

2. Date of effect

These regulations are effective from 1 January 2013.

3. Delegation of powers

The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the [Delegation of Powers Statute 2014](#).

4. Definitions

In these regulations

paper means a segment of work in a particular subject and is identified by means of a unique code number. Papers are delivered through lectures, tutorials, practicals, and such other coursework as may be required by the department concerned

programme of study means the selection of papers taken by a candidate in any one academic year for a particular qualification

restricted papers are either in effect the same papers e.g. one of which was taught in the past with a different paper code, or they share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements

a **prerequisite** must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise)

a **corequisite** must be taken either prior to or concurrently with the paper for which the corequisite is specified

internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests

a **field** means a general area of academic study that includes a number of related subjects

a **subject** is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato [Catalogue of Papers](#). A department may offer more than one subject

a **major** means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level

a **minor** means an additional subject to the major and is a requirement of some bachelors degrees

a **supporting subject** means an additional subject to the major, usually of at least 60 points in a single minor subject

a **specialisation** means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student)

5. **Application**

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6. **Admission and re-entry**

(1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the requirements of Section 255 of the Education and Training Act 2020.

- (2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the [Admission Statute 2016](#).
- (3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the [Criteria for Admission to Particular Qualifications](#) and the qualification regulations.
- (4) To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.
- (5) Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.
- (6) In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.
- (7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the [Limitations Statute](#).
- (8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.
- (9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the [Criteria for Admission to Particular Qualifications](#).
- (10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. Enrolment in a programme of study

- (1) The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
- (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
- (3) The personal programme of study of every candidate is subject to the approval of the Academic Board.
- (4) The papers for qualifications and their prescriptions are defined in the University of Waikato [Catalogue of Papers](#). Before enrolling for a paper, candidates must meet any

requirements specified in the relevant prescription unless approved otherwise by the Academic Board.

- (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. **Maximum student workload**

- (1) The normal maximum full-time student workload for an academic year (excluding C trimester) is 120 points.
- (2) For the purposes of calculating workload, a paper that runs for the duration of two full trimesters has a workload equivalent to half of its points value during each of the trimesters in which it is taught.
- (3) The normal maximum full-time student workload for C trimester is 45 points.
- (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. **Completion of a qualification**

- (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations.
- (2) With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.

10. **Eligibility for Honours or Distinction**

In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.

11. **Dissertations and theses**

- (1) The *Dissertations and Theses Regulations 2020* governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
- (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
- (3) For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
- (4) A dissertation or thesis must embody the results obtained by the candidate in an investigation relating to some branch of the subject or subjects being presented, or, with the approval of

the Academic Board, shall take some other form proposed by the candidate's supervisors and approved by the relevant Head of School or Dean concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.

- (5) Dissertations and theses are assessed in terms of the points value they represent.

12. **Date for submission of dissertations, theses and research reports**

- (1) The deadline for the submission of any dissertation or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation or research report.
- (2) The deadline for the submission of any thesis will be 11.59pm on the last day of the paper occurrence which completes the candidate's enrolment in the total points required for the thesis.
- (3) Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the relevant Head of School or Dean or delegated authority for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
- (4) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
- (5) Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the relevant Head of School or Dean or delegated authority and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. **Resubmission of dissertations and theses**

- (1) A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the relevant Head of School or Dean and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.
- (2) An offer by a Head of School or Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one trimester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.
- (3) A candidate's acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one trimester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the particular enrolment period in which the deadline for re-submission falls.

- (4) A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.
- (5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. **Credit - transfer credit and cross credit**

- (1) **Transfer credit** means credit towards a University of Waikato qualification for papers passed at another tertiary institution.
- (2) **Cross credit** means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.
- (3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.
- (4) Applications for credit must be submitted on the online qualification application, together with the prescribed fee.
- (5) Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.
- (6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:
 - (a) Credit from a completed qualification is normally only available towards a bachelors degree.
 - (b) Credit is not normally awarded from a completed graduate or postgraduate qualification.
 - (c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.
 - (d) Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level. Where appropriate, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may, at their discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies deems a paper to be relevant to the candidate's programme of study.
 - (e) Credit will not normally be awarded for 300 or 400 level papers required for a major in an undergraduate degree.

- (f) No paper may count towards more than two qualifications.
- (7) The decision to award credit in individual cases will be made by the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies.
- (8) In making decisions on credit, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies will consider the relevance and level of the papers completed, the regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student Services.
- (9) Regardless of the total number of papers which an applicant has passed at other institutions, the total credit awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.
- (10) In individual cases, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned.
- (11) In individual cases, the Education Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.
- (12) Applicants wishing to appeal a Pro Vice-Chancellor's or the Dean of the Faculty of Māori and Indigenous Studies decision on credit may apply to the Director of Student Services.
- (13) The consideration of an appeal will involve the Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies concerned being requested to reconsider the decision. Further appeals against the outcome of a reconsideration will be referred to the Education Committee for consideration on behalf of the Academic Board.
15. **Completion of a University of Waikato qualification at another New Zealand university**
A candidate who, based on the assessment of the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Director of Student Services of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.
16. **Completion of a qualification of another New Zealand university at the University of Waikato**

A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

These regulations apply to papers at 0, 100, 200, 300, 400, 500 and 700 levels.
Note: Policies and procedures with respect to change of enrolment for 800 (MPhil) and 900 (doctoral) level programmes are available from the Postgraduate Studies Office.
5. **Fees**
The fees referred to in these regulations are available online at <http://www.waikato.ac.nz/sasd/enrolment/fees.shtml>.
6. **Teaching periods**
The teaching periods referred to in these regulations are defined on page 10 of the University of Waikato Calendar.
7. **Programme approval**
Any change of enrolment constitutes a change to a programme of study and requires the approval of the School of Studies/Faculty/College.
8. **Procedure for change of enrolment**
 - (1) Applications for change of enrolment must be submitted to the School of Studies/Faculty/College that the student is enrolled in for consideration. They may be submitted either on an Application to Change Enrolment form, available from the Gateway and the Schools of Study/Faculty/College or through iWaikato.
 - (2) Absence from classes or failure to submit items for assessment does not constitute withdrawal from a paper. A student who does not withdraw from a paper using the procedures outlined in these regulations remains enrolled for the paper and remains liable for any prescribed fees.
 - (3) Attendance at classes and submission of items for assessment does not constitute enrolment in that paper.
9. **Timeframe for change of qualification, major or specified programme**
Provided that no changes are made to the selection of papers, a student may apply to change a qualification, major or specified programme at any time.
10. **Deadlines for adding, and deleting papers**
 - (1) An application to add a paper (with payment of the prescribed fees), or to delete a paper (with a refund of the prescribed fees) must be submitted to the School of Studies/Faculty/College or through iWaikato by the following deadlines:

Type of Paper

Deadline

Summer School papers and C, D etc. papers with teaching periods shorter than 17 weeks	5.00pm on the first Friday of the relevant teaching period

C, D etc. papers with teaching weeks of 17 weeks or longer	5.00pm on the second Friday of the relevant teaching period

- (2) Where subjects provide for different levels of proficiency on first enrolment (eg Mathematics, languages), a student may apply to transfer, with a transfer of fees, from one paper to a closely related paper in the same subject up until the relevant deadline for withdrawal listed in section 11 of these regulations.

11. **Withdrawal from papers (without a refund of the tuition fee)**

- (1) Unless exceptional circumstances apply (as provided for under section 12 of these regulations), a student who withdraws from a paper after the deadline for deletion (see section 10 of these regulations) is not entitled to a refund of the fees for that paper; if the fees have not been paid, the student remains liable for them.
- (2) A student may withdraw from an undergraduate paper (0, 100, 200, 300, or 400 levels and School of Education 700 level) after the deadline for deletion (see section 10 of these regulations) up until the following dates:

12. **Late deletion or withdrawal under exceptional circumstances**

Note: *Part 4 of the Assessment Regulations 2005 sets out the University's provisions for special consideration in assessment. Students considering withdrawal from papers because of exceptional circumstances beyond their control are encouraged to seek advice first from their School of Studies/Faculty/College, or from the Assessment Office in The Gateway, about whether they might be entitled to special consideration under the Assessment Regulations 2005.*

- (1) If, after the deadline for deletion or withdrawal, a student considers that he or she is unable to complete a paper because of exceptional circumstances beyond his or her control, the student may apply in writing to the Director of Student and Academic Services for late deletion or withdrawal.
- (2) The application must be submitted to the Director of Student and Academic Services and must include an account, with appropriate evidence if available, of the circumstances that prompted the application.
- (3) Applications under this section are considered and decided by the Director of Student and Academic Services.
- (4) If the application is approved, the Director of Student and Academic Services may also approve, at his or her discretion, a credit of some or all of the student's fees.

13. **Appeals**

Fees and Charges Payable

1. A student is deemed enrolled and liable for payment of fees upon signing and acceptance of an Enrolment Agreement, Notification of Change, or other document(s) by which acceptance into a paper or papers is formally agreed.
2. Every person must pay fees and charges (as set out in the [Table of Fees and Charges](#) in the University of Waikato Calendar) according to arrangements and terms agreed at the time of enrolment in the Enrolment Agreement or Notification of Change.
3. Students who do not attend a paper in which they have formally accepted a place will be liable for payment of the fees for that paper, unless the withdrawal procedures as detailed in the [Change of Enrolment Regulations 2003](#) are followed.
4. Unless the Director of Finance determines otherwise, where a student defaults on a payment and does not pay the outstanding amount within 28 days of the due date that student's enrolment will be cancelled.
5. Cancellation of a student's enrolment does not discharge any outstanding debt.
6. Unless special arrangements are agreed by the Director of Finance, the following penalties apply in addition to the cancellation of the student's enrolment while a debt remains outstanding:
 - (a) The student is not entitled to use the Library, attend lectures, participate in laboratory classes, or otherwise make use of university facilities
 - (b) The student's academic results are withheld
 - (c) The student may not re-enrol at this university
 - (d) The student is not entitled to have his or her academic record transferred to any other institution
 - (e) The award of any qualification is deferred
 - (f) The student's outstanding debt may be referred to a debt recovery agency for collection. The University also reserves the right to recover any additional costs in relation to this debt collection from the student.
7. A student whose enrolment is cancelled for reasons of non-payment of fees may subsequently apply for reinstatement of enrolment, provided
 - (a) the application is submitted to the Director of Finance within four weeks of the date of the cancellation
 - (b) all outstanding fees, charges, and surcharges are paid before or at the time that the application is submitted, and
 - (c) the service charge for the reinstatement of enrolment after cancellation, as prescribed in the Table of Fees and Charges, is paid.
8. An enrolment that is reinstated under this section is deemed to have been continuous.
9. The tuition and resource fees for a particular paper fall due on the payment date for the semester in which teaching for that paper starts, or, where beginning outside of these semesters, the first day of the teaching period of the particular paper.

Payment by Semester

10. These provisions for payment of tuition and resource fees by semester do not apply to students who pay by Student Loan.
11. Unless the tuition and resource fees are being paid by Student Loan, a student who enrolls for more than one semester may elect to pay tuition and resource fees by semester.

12. Payment dates are prescribed for each of the semesters, namely the S (Summer School) semester, A semester and B semester.
13. The tuition and resource fees for a particular paper fall due on the payment date for the semester in which teaching for that paper starts.
14. Students who have made arrangements to pay by semester and who discontinue any of their papers remain liable for all payments as they fall due, unless they submit an application to delete the relevant paper by the prescribed deadline (see the [Change of Enrolment Regulations 2003](#)).
15. All fees and charges other than tuition and resource fees fall due as part of the students' first payment.
16. A surcharge of 10% will be levied on any fees outstanding after a given payment date.

Appeals

17. A student may appeal to the Vice-Chancellor against any decision by the Director of Finance under these regulations.

Code of Practice

The University of Waikato has agreed to observe and be bound by the Code of Practice for the Pastoral Care of International Students published by the Minister of Education. Copies of the Code of Practice are available on request from this institution or from the [New Zealand Ministry of Education website](#). Students should refer to the Code of Practice for their specified responsibilities and to the International Student Handbook for University procedures and recommendations.

Admission

All students are required to meet the entry requirements for admission, as set out in the [Admission Statute 2005](#).

International students must apply for admission on the Application to enrol form for new international students, available online or from Waikato International. Permanent residents of Australia and New Zealand, Australian citizens, and students from the Cook Islands, Tokelau or Niue who are New Zealand citizens, are treated as New Zealand students and do not need to apply for admission as international students. Enquiries should be directed to the Student and Academic Services Division in the The Gateway.

Intending applicants should note the following general points:

1. All international students enrolling in an undergraduate programme must hold as a minimum requirement an equivalent university entrance qualification; for example, three passes at grade C or better in the GCE 'A' level examinations. Students who have achieved an equivalent to New Zealand University Entrance through a qualification other than NCEA Level 3 will have their admission assessed on a case by case basis.¹ Please contact the Student and Academic Services Division for detailed guidelines on admission to the University of Waikato.
2. Applicants whose first language is not English are required to provide satisfactory evidence of English language proficiency, generally in the form of an IELTS or TOEFL examination score. Scores can vary according to the qualification sought.

Admission to BA, BCGD, BCMS, BMPD, BMus, BSc (in the School of Computing and Mathematical Sciences), BSocSc and BSplS

The following minimum scores are considered to be evidence of such competence:

- a TOEFL score of 550 (with at least 5 on the Test of Written English), or
- an IELTS score of 6.0 (with at least 6.0 in the written band), or
- an iBT (Internet Based TOEFL) score of 79-80 with a Writing score of 20.

All other evidence is considered on a case by case basis.²

Admission to BCS, BECom, BMS and BTour

The following minimum scores are considered to be evidence of such competence:

- a TOEFL score of 550 (with at least 5 on the Test of Written English), or

- an IELTS score of 6.0 (with no less than 6.0 in any band), or
- an iBT (Internet Based TOEFL) score of 79-80 with a Writing score of 20.

All other evidence is considered on a case by case basis.²

Admission to BE, BSc (in the School of Science and Engineering) and BSc(Tech)

The following minimum scores are considered to be evidence of such competence:

- a TOEFL score of 550, or
- an IELTS score of 6.0 (in all sections of the test), or
- an iBT (Internet Based TOEFL) score of 79-80 with a Writing score of 20.

All other evidence is considered on a case by case basis.²

Admission to BTchg and LLB

The following minimum scores are considered to be evidence of such competence:

- a TOEFL score of 600 (with at least 5 on the Test of Written English), or
- an IELTS score of 6.5 (with at least 6.0 in the written band), or
- an iBT (Internet Based TOEFL) score of 79-80 with a Writing score of 20.

All other evidence is considered on a case by case basis.²

Admission to graduate programmes

The requirements are higher for admission to graduate qualifications (including higher degrees such as the MPhil, PhD, and EdD). It is generally recommended that students have:

- an IELTS score of at least 6.5 overall (including at least 6.0 or better in the writing band), or
- a TOEFL score of 600 plus a TWE (Test of Written English) of 5 or better, or
- an iBT (Internet Based TOEFL) score of 100 with a Writing score of 22.

However, some qualifications, such as the LLD, SJD, MBA, PGDip(SLT), MA(Applied) in Applied Linguistics and MSc in Biological Sciences, require a higher score. The English language proficiency requirements for admission to particular qualifications are at the discretion of the Dean concerned.

Admission to graduate Law qualifications

The following minimum scores are considered to be evidence of such competence:

- a TOEFL score of 600 (with at least 5.5 on the Test of Written English), or
- an IELTS score of 6.5 (with at least 6.0 in the written band), or
- an iBT (Internet Based TOEFL) score of 100 with a Writing score of 22.

All other evidence is considered on a case by case basis.

Admission to GradDipTchg

The following minimum scores are considered to be evidence of such competence:

- a TOEFL score of 600 (with at least 5 on the Test of Written English), or
- an IELTS score of 7.0 (with no less than 7.0 in any band), or
- an iBT (Internet Based TOEFL) score of 100 with a Writing score of 22.

All other evidence is considered on a case by case basis.

Notes:

1. Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or foundation courses in order to satisfy these prerequisites. Applicants in this situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.
2. Scores from the computer-based TOEFL test will be considered on a case by case basis. Generally, a computer-based TOEFL score of 213 and an essay writing score of 4.5 will be considered acceptable for admission.

Tuition Fees and Charges

1. International students are required to pay full cost tuition fees. Students should refer to the [Table of Fees and Charges](#) for other fees and charges that may be applicable.
2. Application for credit from overseas study prior to enrolment \$100.00.

3. Application for credit from overseas study after enrolment \$50.00.
4. The New Zealand Government has cultural agreements with the French and German Governments that allow French and German students to pay domestic tuition fees at postgraduate level in New Zealand. The agreement with the German Government also allows German students in receipt of a German Academic Exchange Scholarship (DAAD) to study in New Zealand at undergraduate level and pay domestic tuition fees.
5. New international PhD students are eligible for domestic fees for their PhD studies. Conditions apply. For more information see the Postgraduate Studies Office website: <http://www.waikato.ac.nz/sasd/postgraduate>.

New Zealand Immigration Requirements

1. All international students must hold a valid student permit (or visitor permit for courses of less than three months) for the duration of their studies. Further information regarding the various requirements of Immigration New Zealand (INZ) can be obtained from the nearest New Zealand High Commission, Embassy or INZ Office.
2. An offer of a place at the University does not guarantee that the student will be issued with a student visa.
3. INZ require that tuition fees for the first year of study are pre-paid before a student visa will be issued. Students are also required to provide evidence of additional funds available for living costs of approximately NZ\$10,000.
4. The University is required to report to the INZ those students who are not fulfilling the requirements of their student permit.

Pre-paid Tuition Fees Policy

As indicated above, international students are required by the INZ to pre-pay one year's tuition fees to the University of Waikato in order to be granted a student visa. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii) completes the first semester of study and does not enrol in the second semester of study and they have a student permit valid for one year.

1. All students must apply in writing for a refund of their pre-paid tuition fees to the Director, Student and Academic Services Division.
2. Students are required to supply a verified copy of their passport and student permit, and a copy of their University of Waikato receipt(s) with their application for a refund.
3. The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.
4. Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.
5. Where a student will be returning to their home country, the funds will be refunded in one of three ways:
 - (1) an overseas bank draft sent to the overseas address provided by the student
 - (2) an overseas bank draft given to the student which can be banked in the appropriate overseas country, or
 - (3) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party.
6. Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either
 - (a) upon evidence of a valid INZ permit to remain in New Zealand, or
 - (b) confirmation that the INZ has discharged the University of Waikato's duty under the original student permit.
7. If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

An administration charge of 10%, including GST, is withheld from the refund of

pre-paid tuition fees for students who decide not to enrol at the University of Waikato prior to completing their enrolment or during the withdrawal period. A further charge may be imposed to recover Agent Commission paid by the University in relation to the student's enrolment, in the event that approval is given for the student to withdraw on compassionate or medical grounds.

Intermediate programmes for entry to the following professional courses at other universities may be taken at the University of Waikato: Engineering (Canterbury), Forestry Science (Canterbury), and Surveying (Otago). Details of requirements are available from the Student and Academic Services Division of this University. Students who wish to take intermediate programmes (except Engineering) for the purpose of applying for admission to professional courses at other universities should ensure that they obtain up to date information and approval from the appropriate university for their first year papers at the University of Waikato. Engineering intermediate students do not require such approval unless they wish to take a modified intermediate programme.

In some instances, direct entry to the professional course or exemption from certain papers may be available to candidates with high NCEA Level 3 results. Enquiries regarding this should be made to the Dean of the School of Science and Engineering prior to enrolment.

Preamble

Any member of the University community who undertakes research is expected to conduct the research in a manner that conforms with ethical standards set down by the University, by relevant professional bodies nationally and internationally, and in many cases by the law of the country in which the research is undertaken. These regulations apply to all human research undertaken in the name of the University of Waikato. Students are referred also to the University's Student Discipline Regulations 2006. Staff are referred also to the University's Staff Code of Conduct and Code of Ethics for Academic Staff.

Note: The University's Human Research Ethics Regulations are currently under review.

1. **Title**
These are the Human Research Ethics Regulations 2005.
2. **Purpose**
The purpose of these regulations is to explain the standards of ethical conduct required in University research involving human participants, and the procedures that apply for the maintenance and monitoring of those standards.
3. **Date of effect**
These regulations are effective from 8 March 2005.
4. **Definitions**
In these regulations
research means an inquiry of an investigative, experimental or critical nature which is driven by a question, hypothesis or intellectual position capable of rigorous assessment, and the findings of which are open to scrutiny and formal evaluation; it includes any intellectual or creative work published, exhibited, presented or performed in a written, spoken, electronic, broadcasting, visual, performance or other medium
research refers specifically to human research, which means an activity in which a live human being or a group of live human beings participates in the research, whether by observation, questioning, participation in an experiment, or by other means; it includes teaching that involves the participation of a human being or group of human beings for the demonstration of procedures or phenomena; (ethical aspects of research using live animals is covered by the University's Code of Ethical Conduct for the Use of Animals for Teaching and Research)
researcher means the person conducting the research.
5. **Application**
These regulations apply to
(a) staff of the University of Waikato,
(b) students of the University of Waikato, and
(c) any other person authorised to undertake research in association with the University of Waikato.
6. **Responsibility for ethics in human research**
(1) A researcher is responsible for identifying a research project as human research and, if it is identified as human research, for ensuring that it complies with these regulations.
(2) If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
7. **Value of research and public interest**
(1) A researcher must be able to justify to his or her peers the goals and

methodology of the research in terms of its reasonably anticipated benefits balanced against any foreseeable risk to the participants.

- (2) A researcher must not refuse to make available the findings of the research in the public domain unless this has been agreed in writing by the Deputy Vice-Chancellor or by a person to whom authority is delegated in writing by the Deputy Vice-Chancellor, and notified to the chairperson of the Human Research Ethics Committee.

8. **Informed consent of participants**

- (1) A researcher must not involve a person in research unless the person has understood the nature of his or her involvement and freely agreed to it in accordance with the principles outlined in this section.
- (2) A researcher must not use coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 16 of these regulations.
- (3) A researcher must be able to justify the research on the basis of an explicitly formulated principle of trust between the researcher and the participant that is capable of peer review by a relevant professional body.
- (4) Unless section 9 of these regulations applies, a researcher must adhere to the following principles with respect to informed consent of participants:
- (a) A researcher must inform participants of their right to complain if they feel that their trust has been abused, and must also inform them of the process for making a complaint.
 - (b) If the research involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (d) applies, the consent of the person with legal responsibility for the participant, must be recorded in writing or on tape.
 - (c) Because much social science research involves collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research, in spite of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.
 - (d) If a prospective participant is, because of age or infirmity, judged incapable of giving informed consent, the researcher must obtain the consent from the person who has legal responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between him or her and the person whose consent is required.
 - (e) A researcher who seeks the consent of another person on behalf of a prospective participant under subsection (d) must make all reasonable effort to involve the prospective participant him or herself in the process and the decision about consent.
 - (f) A researcher must inform prospective participants of their right to
 - (i) decline to participate in the research
 - (ii) decline to answer particular questions or engage in particular activities
 - (iii) withdraw completely from the research at any time
 - (iv) withdraw any information they have provided at any time before completion of data collection.
 - (g) Where research participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, or undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or on tape.
 - (h) Where the research methods and consent process are to be formal, the researcher must, before inviting prospective participants to participate
 - (i) make them aware of the nature of the research
 - (ii) make them aware of the form in which the findings will be published
 - (iii) provide them with all information relevant to the decision to participate.
 - (i) A researcher must provide the information under subsection (h) plainly and in the language that is appropriate for the prospective participants.
 - (j) Where less formal research methods are involved or where the participation is more collective or anonymous, informed consent may be less personalised and less explicit (see section 9 of these regulations).

- (k) A researcher must inform participants of their right of access to any data that may have been collected from or about them.

9. Large random sample surveys and similar research instruments

- (1) A researcher who intends to conduct structured interviews involving large numbers of people sampled randomly and anonymously is not required to adhere to all the principles concerning informed consent outlined in subsection 8(4) of these regulations if the research instrument makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to maximise the response rate in order to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in subsection 8(4) of these regulations in the application for approval submitted under section 21 of these regulations, and must provide the following information, as a minimum, to a participant before the interview:
 - (a) the anticipated length of the interview
 - (b) the general purpose of the research
 - (c) an assurance that the participant will not be identified in any publication or dissemination of research findings.

10. Archiving of data and privacy and storage of personal information

- (1) All data used for published research must be archived indefinitely and made available for secondary analysis, unless an intention to do otherwise is declared and justified in the application for approval submitted under section 21 of these regulations.
- (2) Where the research is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation:
 - (a) Participants and informants must not be publicly identified or identifiable without their explicit consent
 - (b) Participants must be informed (unless section 9 of these regulations applies) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
 - (c) Researchers must take all reasonable precautions to prevent unauthorised use, access, modification or disclosure of personal information
 - (d) Data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1))
 - (e) Except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
- (4) Even where the research is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail.
- (5) A researcher must include in an application submitted under section 21 of these regulations a statement about the conditions under which, and the period for which, any personal information collected for the research is to be stored.

11. Minimisation of risk

- (1) A researcher must make particular effort to identify physical, psychological, social or cultural risk to participants before seeking their consent to participation in research.
- (2) A researcher must minimise both the risk to a participant and the potential for negative consequences of the risk.
- (3) 'Risk' in this context includes pain, stress, emotional distress, fatigue, embarrassment, cultural dissonance and exploitation.
- (4) Unless it would be impractical or undesirable to do so in the terms described in section 9 of these regulations, a researcher must consult participants to ascertain any risk that they themselves may identify or concerns that they themselves may have.
- (5) If, during the course of the research, it is apparent to the researcher that the risk to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research in terms of the principles outlined in this section.

12. Limitation of deception

- (1) Deception of participants conflicts with the principle of informed consent, but in some areas of research it may be necessary to withhold information

about the purpose of the research or the procedures involved.

- (2) Research involving deception of participants will be approved only if the researcher demonstrates, through the approval procedures explained in section 21 of these regulations, that the deception is absolutely essential to the goals of the research.
 - (3) A researcher who undertakes research involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and the reason for the deception as soon as practicable after the participation.
- 13. Social and cultural sensitivity**
- (1) A researcher must respect the cultural, social and language preferences and sensitivities of the participant.
 - (2) Where the research is aimed at individuals or groups who are significantly different in culture from the researcher, the researcher must consult a qualified person before the research begins about appropriate procedures and approaches to the research, and about informing the participant or community concerned of the research findings.
- 14. Exploitation of relationships**
- (1) A researcher must not exploit the relationship between researcher and participant.
 - (2) A researcher must prevent or terminate any initiative by a participant to exploit the relationship between researcher and participant.
 - (3) 'Exploitation' in this context means the seeking or obtaining of money, goods, services, favours, information or relationships that have no direct bearing on the stated research aims or data gathering.
 - (4) Where a researcher is a staff member and the prospective participant a student, the researcher must ensure that the student is not disadvantaged through his or her participation or refusal to participate, academically, professionally or otherwise.
- 15. Respect for property rights**
- (1) A researcher must ensure that procedures or publications associated with the research do not infringe legally or culturally determined property rights.
 - (2) Property rights in this context may apply to land, goods, works of art and craft, spiritual treasures, information and intellectual property.
 - (3) A researcher must identify and address any issues associated with property rights and ownership of data at the time he or she seeks informed consent.
- 16. Payment for participation**
- A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours or in any other form of remuneration, either directly or indirectly, unless the payment is approved by the appropriate approving authority under section 21 of these regulations.
- 17. Professional codes of ethics**
- A researcher must ensure that the research complies with any ethical or scientific code or standard established by any professional organisation relevant to the research.
- 18. Observation and research in schools and early childhood centres**
- (1) A researcher involved in observation and research in a school or early childhood centre must comply with the guidelines in Appendix 11.
 - (2) The Human Research Ethics Committee may amend the guidelines in Appendix 1 on the recommendation of the Board of Studies of the School of Education.
- 19. Declaration of conflict of interest**
- (1) A researcher must, in an application submitted under section 21 of these regulations, declare any conflict of interest.
 - (2) 'Conflict of interest' in this context means
 - (a) unfair professional, commercial or personal advantage
 - (b) position in relation to the research or the participants that could appear to affect the researcher's impartiality in the research
 - (c) direct or indirect pecuniary interest.
 - (3) If research is commissioned or sponsored, the researcher must ensure that the commission or the sponsorship
 - (a) is declared to the participants and in any published findings
 - (b) does not compromise the standard or ethics of the research.
- 20. Authority for approval and monitoring of human research**
- (1) Any human research requires approval.
 - (2) The Human Research Ethics Committee is responsible to the Academic Board for the promotion, review and monitoring of ethical practice in human research, and for monitoring compliance with these regulations.
 - (3) Each School of Studies and Faculty has one or more committees with

responsibility at the School, Faculty or departmental level, delegated by the Human Research Ethics Committee, for

- (a) the approval of human research activities in the School, Faculty or department
 - (b) compliance with these regulations in the School, Faculty or department
 - (c) maintaining records of human research activities in the School, Faculty or department in the form required by the Human Research Committee
 - (d) reporting to the Human Research Ethics Committee in the form required by that Committee.
- (4) The Dean of each School or Faculty recommends to the Human Research Ethics Committee for approval the committee structure for the respective School or Faculty under subsection (3), and the constitution, membership and procedures of any committee involved.
 - (5) Responsibility for the following matters in any organisational unit outside a School or Faculty is delegated by the Human Research Ethics Committee to the Director of that unit:
 - (a) the approval of human research activities in the unit
 - (b) compliance with these regulations in the unit
 - (c) maintaining records of human research activities in the unit in the form required by the Human Research Committee
 - (d) reporting to the Human Research Ethics Committee in the form required by that Committee.
 - (6) A Director who delegates any of the responsibilities listed in subsection (5) may determine the terms of the delegation, but retains overall responsibility and accountability to the Human Research Ethics Committee.
 - (7) A committee at the departmental, School or Faculty level, or a Director of a unit outside a School or Faculty, may consult with the Human Research Ethics Committee at any time and may request that the Human Research Ethics Committee review any relevant matter, or review any decision taken under delegated authority.

21. **Application procedures for human research**

- (1) A researcher must not commence a human research project until it has been approved by the appropriate authority (section 20 of these regulations) and in accordance with these regulations.
- (2) If an ethical issue relating to human research that was not envisaged when the research was originally begun arises during the course of a research project, the researcher must stop the research and apply to the appropriate authority for approval; the researcher must not begin the research again until the necessary approval has been obtained.
- (3) Applications for approval of human research must be submitted in the form prescribed for the relevant School, Faculty, department or unit; a format suggested by the Human Research Ethics Committee for this purpose is attached as Appendix 2.¹

22. **Appeals against decisions concerning applications**

A researcher may appeal to the Human Research Ethics Committee against any decision concerning an application for human research at the departmental, School, Faculty or unit level.

23. **Complaints and breaches**

- (1) A dispute or complaint about a human research project that has ethical implications may be referred to the Human Research Ethics Committee.
- (2) If a complaint or dispute arises, the Human Research Ethics Committee may require that the relevant activity be discontinued until the complaint or dispute is resolved.
- (3) If, in its judgement, formal disciplinary action is not required, the Human Research Ethics Committee may take informal action, at its discretion, to deal with the complaint or dispute.
- (4) If the Human Research Ethics Committee considers that the complaint or dispute is sufficiently serious, it may refer the matter to the Vice-Chancellor who may arrange for it to be dealt with

Preamble

Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the *Animal Ethics Committee Code of Ethical Conduct*.

Students are referred also to the University's *Student Discipline Regulations 2006* in this Calendar and the *Handbook for Research Degrees of MPhil, PhD, and EdD at the University of Waikato*, as amended from time to time, and the *Guidelines for Professional Practice and Community Contact in the Conduct of University Research or Related Activities* (see Appendix 1 to these regulations).

Staff are referred also to the University's *Staff Code of Conduct* and the *Code of Ethics for Academic Staff*.

Students and staff are also referred to the *Handbook on Ethical Conduct in Research*, available from the Research Office.

1. **Title**
These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.
2. **Purpose**
Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.
3. **Date of effect**
These regulations are effective from 1 July 2008.
4. **Scope**
 - (1) These regulations apply to all
 - (a) staff of the University of Waikato,
 - (b) students of the University of Waikato, and
 - (c) any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.
 - (2) Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato School/Faculty or department committee.
 - (3) Under these regulations, all research and/or related activities are required to have formal ethics review and approval.
 - (4) Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student

or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.

- (5) Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University [Staff Code of Conduct](#) and should be consistent with the spirit of these regulations.

5. Definitions

In these regulations

research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium;

related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:

teaching means teaching in lectures, tutorials, demonstrations, and related educational research;

consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant;

evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity;

publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium;

participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means;

organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, schools, and professional societies.

researcher means the person undertaking research and/or related activities;

harm includes physical, psychological, social, economic, or cultural harm to participants;

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures

- (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
- (2) Researchers must submit applications for approval for their research or related activity to one of the delegated School/Faculty or department committees (see section 22 of and Appendix 2 to these regulations) within the University.
- (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
- (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant School, Faculty, department, or unit (see Appendix 3 to these regulations).
- (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not begin the research and/or related activity again until the necessary approval has been obtained.
- (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. Responsibility for ethics in research and related activities

- (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
- (2) If a researcher is a student, the staff member responsible for supervising the

student's research must take all reasonable steps to ensure that the student complies with these regulations.

- (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. **Value of research or related activities and the public interest**

- (1) A researcher must be able to justify to his or her peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
- (2) A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Deputy Vice-Chancellor (see section 10(7) and section 14 of the [Dissertations and Theses Regulations 2006](#)).

9. **Informed consent of participants**

- (1) Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
- (2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of his or her involvement and freely agreed to it in accordance with the principles outlined in this section.
- (3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.
- (4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
 - (a) A researcher must inform prospective participants of all information relevant to the decision to participate including:
 - (i) their right to decline to participate in the research and/or related activities or any portion or any part of these;
 - (ii) the form in which the findings will be published;
 - (iii) duration and security of data storage;
 - (iv) their right to withdraw any information they have provided up until analysis has commenced on their data;
 - (v) their right to access and correct personal information;
 - (vi) the process for withdrawing information they have provided.
 - (b) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).
 - (c) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
 - (d) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.

- (e) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between him or her and the person whose consent is required.
- (f) A researcher who seeks the proxy consent of another person on behalf of a prospective participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant him or herself in the process and the decision about consent.
- (g) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
- (h) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
- (i) A researcher must inform participants of their right of access to any data that may have been collected from or about them.
- (j) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. Large random sample surveys and informed consent

- (1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
- (3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins:
 - (a) the anticipated length of the research or related activity;
 - (b) the general purpose of the research or related activity;
 - (c) the forms in which the data might be published;
 - (d) an assurance that the participant will not be identified in any publication or dissemination of research findings.

11. Field research and informed consent

- (1) 'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
- (2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.
- (3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.
- (4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. Archiving of data, privacy, storage, and use of information

- (1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
- (2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation:
 - (a) participants and informants must not be publicly identified or identifiable without their explicit consent;

- (b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent;
 - (c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information;
 - (d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section);
 - (e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
 - (4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail.
 - (5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal information collected for the research and/or related activity is to be stored.
 - (6) Data must not be made available to persons or for purposes that are not named on the application.
- 13. Minimisation of harm**
- (1) A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.
 - (2) A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.
 - (3) 'Harm' in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.
 - (4) Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.
 - (5) If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.
- 14. Limitation of deception**
- (1) Deception of participants conflicts with the principle of informed consent, but in some research and/or related activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.
 - (2) Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the research and/or related activity.
 - (3) A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.
- 15. Social and cultural sensitivity**
- (1) A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.
 - (2) Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
 - (3) An application for ethics review under these regulations must demonstrate how the researcher has responded to the advice received from the person consulted.
 - (4) Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.
- 16. Exploitation of relationships**

- (1) A researcher must not exploit the relationship between researcher and participant.
 - (2) A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.
 - (3) 'Exploitation' in this context means the seeking or obtaining of money, goods, services, favours, information or relationships that have no direct bearing on the stated research and/or related activity aims or data gathering.
 - (4) Where a researcher is a staff member and the prospective participant a student, the researcher must not exploit that relationship and must strive to ensure that the student is not disadvantaged through his or her participation or refusal to participate, academically, professionally, or otherwise.
- 17. Respect for property rights**
- (1) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe legally determined property rights.
 - (2) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe culturally determined property rights to the extent possible and reasonable in all circumstances.
 - (3) Property rights in this context may apply to land, goods, works of art and craft, images, and intangible materials such as spiritual treasures, music, information, and intellectual property.
 - (4) A researcher must identify and address any issues associated with property rights and ownership of data at the time he or she seeks informed consent and monitor these issues throughout the research process.
- 18. Payment for participation**
- A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours, or in any other form of remuneration or form of hospitality appropriate to the engagement, either directly or indirectly, unless the payment is approved by the appropriate approving authority (see section 22 of and Appendix 2 to these regulations).
- 19. Professional codes of ethics**
- A researcher must ensure that his or her research or related activity complies with any professional code of ethical practice or standard relevant to the research and/or related activity.
- 20. University research and/or related activities in schools and early childhood services**
- A researcher involved in research and/or related activities in schools or early childhood services must comply with the [Guidelines for Observation and Research in Schools and Early Childhood Services](#) (see Appendix 4 to these regulations).
- 21. Declaration of potential conflict of interest**
- (1) A researcher must, in an application submitted under section 4 of these regulations, declare any potential conflict of interest.
 - (2) 'Conflict of interest' occurs where a researcher or related party is, or is reasonably likely to:
 - (a) obtain an unfair, inappropriate, or unethical professional, commercial, or personal advantage as a result of or in connection with the research and/or related activity;
 - (b) be in a position in relation to the activity or the participants that could appear to affect the researcher's impartiality in the research and/or related activity;
 - (c) obtain a direct or indirect pecuniary benefit or interest as a result of or in connection with the research or related activity.
 - (3) If the research and/or related activity is commissioned or sponsored, the researcher must ensure that the commission or the sponsorship:
 - (a) is declared to the participants and in any published findings;
 - (b) does not compromise the standard or ethics of the research and/or related activity.
- 22. Authority for ethical approval and monitoring**
- (1) Authority for administering these regulations rests with the University of Waikato Human Research Ethics Committee.
 - (2) The University of Waikato Human Research Ethics Committee is responsible to the Academic Board for the promotion, review, and monitoring of ethical practice in University research and/or related activities and for monitoring compliance with these regulations.
 - (3) Each School of Studies and Faculty has one or more committees with responsibility at the School, Faculty, or departmental level, delegated by the University of Waikato Human Research Ethics Committee, for:

Details about terms of enrolment for these degrees are available from the Postgraduate Studies Office. General information about the submission of MPhil and doctoral theses is published in the *Handbook for the Master of Philosophy and Doctorates at the University of Waikato*. Students may obtain details about style, general layout and important conventions to be followed in writing a thesis (referencing, bibliographies etc.) from their supervisor or Chairperson of Department. The University of Waikato Library publishes a [guide to the presentation and submission of dissertations and theses](#) which is available from the Library's Information Desk, Level 2.

paper outline means the document distributed by the relevant department providing detailed information about the nature and requirements of the paper

plagiarism means presenting as one's own work the work of another, and includes the copying or paraphrasing of another person's work in an assessment item without acknowledging it as the other person's work through full and accurate referencing; it applies to assessment presented through a written, spoken, electronic, broadcasting, visual, performance or other medium.

special examination means an examination prepared and scheduled for a student whose application for special consideration under section 17 of these regulations has been accepted as valid by the Special Consideration Sub-Committee

4. Application

These regulations apply to papers at 0, 100, 200, 300, 400, 500, and 700 levels.

5. Fees

The fees referred to in these regulations are prescribed in the Table of Fees and

Charges section of the University of Waikato Calendar.

6. **Eligibility to submit assessment**
A student must be enrolled for a paper in order to be eligible to submit assessment in it.
7. **Use of particular languages for assessment**

8. **Plagiarism and cheating**
 - (1) Guidelines for sourcing and referencing styles appropriate to particular disciplines are available from the Schools of Studies/Faculty/College and the Library.
 - (2) Plagiarism is prohibited.
 - (3) It is not a defence against a charge of plagiarism for a student to argue that he or she did not act intentionally in appropriating the writing or work of another person; however, the extent to which the student is judged to have plagiarised intentionally, and the level and standard of scholarship that might reasonably be expected of the student, may be factors in the determination of any disciplinary action to be taken against the student.
 - (4) Cheating in any matter connected with assessment is prohibited.
9. **Use of the same material for different assessment items**
Unless approved otherwise by the examiners of the papers concerned, a student must not submit as assessment material that is substantially the same as material submitted as assessment for a different paper.

Part 2

10. **Presence and identification at examinations**
 - (1) A student may attend an examination only if he or she is enrolled for the paper for which it is prescribed.
 - (2) A student may not enter an examination to begin an examination after the first 45 minutes.
 - (3) Except with the permission of the examination supervisor, a student may not leave an examination room during the first 45 minutes or during the last 15 minutes.

 - (2) A cell phone, pager or any other communications or electronic device that

 is prohibited in the examination room, unless it is a computer authorised by an examiner under subsection 11(3) of these regulations.
 - (3) A student may not bring into the examination room any of the following items unless authorised in writing by the examiner:
 - (a) paper
 - (b) books
 - (c) calculators

 - (4) If calculators, electronic dictionaries or computers are authorised under subsection 11(3) of these regulations, details of the type and the functions that may be used will be specified by the examiner.
 - (5) Items brought into an examination room may be subject to scrutiny and their use during the examination may be monitored.
 - (6) A student undertaking an examination must not
 - (a) communicate with another student during the examination
 - (b) share material in the examination room.
12. **Communications with others about examinations**

Part 3

Special Arrangements for Examinations

13. Applications and procedures

- (1) Applications under this Part are considered and decided by the Special Consideration Sub-Committee, which is a committee of the Academic Programmes Committee.
- (2) The times and places of examinations are notified by the Director of Student and Academic Services.
- (3) A student
 - (a) who has a learning or physical disability that is likely to affect his or her performance in an examination, or
 - (b) who, for any other reason that he or she considers to be compelling, requires a special arrangement to undertake an examination, may apply to undertake the examination at a different time, a different place, or under special conditions.
- (4) The application must be submitted to the Director of Student and Academic Services, on the prescribed form, as soon as practicable after the teaching of the paper has started and the need for the special arrangement has been identified.
- (5) If the need is identified too late to allow for a suitable arrangement to be made by the University, the student will be advised to apply for special consideration under Part 4 of these regulations.
- (6) An application under this Part must be supported by evidence as stipulated on the application form.
- (7) A student who makes an application under this Part may be requested by the Special Consideration Sub-Committee to undergo an evaluation by an independent professional person.
- (8) The University makes any arrangements and meets any costs for an evaluation under subsection 13(7) of these regulations.
- (9) If the Special Consideration Sub-Committee considers that
 - (a) the circumstances documented in the application are valid according to the criteria set down in subsection 13(3) of these regulations, and
 - (b) it is practicable to do so given the nature of the circumstances involved and the availability of resources,
 it will offer the student a special arrangement.

14. Conditions attached to special arrangements

- (1) Unless approved otherwise by the Special Consideration Sub-Committee, a student will not be permitted to undertake an examination at a different time that is more than two days before or after the notified time for other candidates.
- (2) A student who accepts an opportunity to undertake an examination at a different time is required to sign a statutory declaration promising not to communicate about the content of the examination with any other person between the time he or she undertakes it and the time it is undertaken by the other candidates.
- (3) The Special Consideration Sub-Committee may require, as a condition attached to the offer of a special arrangement, that the student contribute part or all of any associated costs.

Part 4

Special Consideration for Missed Assessment, or Impaired Performance in Assessment

15. Grounds for applications for special consideration

If, due to circumstances beyond his or her control (such as illness, injury, bereavement or trauma),

- (a) a student has been prevented from presenting internal assessment,
 - (b) a student's performance in internal assessment has been seriously impaired,
 - (c) a student has been prevented from undertaking an examination,
 - (d) a student's performance in an examination has been seriously impaired, or
 - (e) a student's ability to prepare for an examination in the two weeks immediately preceding the examination has been seriously impaired,
- the student may apply for special consideration.

16. Special consideration in respect of internal assessment

- (1) Applications for special consideration in respect of internal assessment are considered and decided by the examiner of the paper for which the assessment is prescribed.
 - (2) An application for special consideration in respect of internal assessment must be made in writing to the relevant examiner not later than three days after the date on which it is due.
 - (3) The application must be supported by evidence that is acceptable to the examiner; the evidence may be in the form of
 - (a) a medical certificate for an illness or injury affecting the period relevant to the particular assessment item, or
 - (b) evidence of any other circumstance and its effect on the student over the period relevant to the particular assessment item.
 - (4) If the examiner accepts that the circumstances documented in the application are valid, he or she may
 - (a) estimate a mark for the assessment item, or
 - (b) if it is practicable to do so, offer the student an opportunity to submit or repeat the original assessment item or to submit an alternative assessment item.
 - (5) A student may not be awarded estimated marks under subsection 16(4) of these regulations for more than 33% of the overall internal assessment for a paper.
 - (6) If the examiner does not offer any of the options under subsection 16(4) of these regulations, the student may apply under the Change of Enrolment Regulations 2003 to withdraw from the paper on medical or compassionate grounds.
 - (7) A student may appeal to the chief examiner against any decision by an examiner under this section.
 - (8) An appeal to the chief examiner must be made in writing by the student not more than seven days after he or she has received notification of the relevant decision by the examiner.
 - (9) Where an examiner is also the chief examiner, a student may appeal directly to the Director of Student and Academic Services under the provisions of section 24 of these regulations.
- 17. Special consideration in respect of examinations**
- (1) Applications for special consideration in respect of examinations are considered and decided by the Special Consideration Sub-Committee.
 - (2) In order to be eligible for special consideration in respect of an examination, a student must have submitted all compulsory items of internal assessment for the relevant paper.
 - (3) An application for special consideration in respect of an examination must be submitted to the Director of Student and Academic Services on the prescribed form not later than three days after the date of the examination.
 - (4) The application must be accompanied by evidence of the circumstances relating to the application.
 - (5) In the case of injury, illness, bereavement or trauma, the evidence required under subsection 17(4) of these regulations must be in the form of a report that relates to a consultation within 24 hours of the examination between the student and a medical practitioner, midwife, dental surgeon or psychologist, or between the student and a counsellor who is recognised for this purpose by the Special Consideration Sub-Committee. (Details of the names of counsellors recognised for this purpose are available from the Director of Student and Academic Services.)
 - (6) In the case of any circumstance other than those described in subsection 17(5) of these regulations, the evidence must be in the form of a statement of the nature and time of the circumstance, written by the student.
 - (7) The Director of Student and Academic Services may, at his or her discretion, request the student to submit a statutory declaration affirming details of the circumstances relating to the application.
 - (8) Where an application is accepted as valid by the Special Consideration Sub-Committee, the chief examiner will be requested by the Director of Student and Academic Services to consider the assessment of the student in the relevant paper.
 - (9) The chief examiner may at his or her discretion
 - (a) estimate a grade for the paper, or
 - (b) offer the student the opportunity to undertake a special examination.
 - (10) If the chief examiner does not estimate a grade for the paper under subsection 17(9) of these regulations, and it is not practicable to offer a special examination (either because of the nature of the assessment or the continuing circumstances of the student), the student may apply under the *Change of Enrolment Regulations 2003* to withdraw from the paper on

medical or compassionate grounds.

- (11) Where a student demonstrates to the Director of Student and Academic Services that, because of circumstances beyond his or her control, he or she is not able to accept the offer of a special examination, the student may apply under the *Change of Enrolment Regulations 2003* to withdraw from the paper on medical or compassionate grounds.

Part 5

Review of Grade and Return of Examination Script

18. Review of grade

- (1) A student who considers that a mistake has been made in the process of calculating or determining a grade for a paper may apply for a review of a grade.
- (2) An application for review of grade must be submitted by the student on the prescribed form, together with the prescribed fee, to the Director of Student and Academic Services not more than 14 days after receiving notification of the grade.
- (3) The application must be accompanied by all items of internal assessment for the relevant paper that have been returned to the student.
- (4) A review of grade involves a re-marking of all items of assessment that contribute to the final grade, and a re-calculation of marks.
- (5) A review of grade results in a grade either being left unchanged, raised or lowered.
- (6) The fee for a review of grade is refunded if the review results in a change of grade.

19. Return of examination script

- (1) A student may apply for a copy of his or her marked examination script.
- (2) An application for a copy of an examination script must be submitted to the Director of Student and Academic Services on the prescribed form, together with proof of identity, not later than three months after the date of the examination concerned.
- (3) Examination scripts are destroyed by the University after the three-month deadline has elapsed.

Part 6

Grades and Annotations

20. Grades

- (1) Grades are confirmed by Boards of Examiners or delegated authorities.
- (2) The schedule of grades used by the University and the range of marks represented by each grade is as follows:

Pass Grades

A+	85-100
A	80-84
A-	75-79
B+	70-74
B	65-69
B-	60-64
C+	55-59
C	50-54
RP	Restricted pass
P	Ungraded pass

Fail Grades

D	40-49
E	0-39
F	Ungraded fail

- (3) A “...” annotation is used on students’ academic records for theses and papers that may be undertaken over more than one year, and indicates that the enrolment is continuing into a subsequent year.
- (4) A restricted pass (“RP”) grade may be awarded at the discretion of a Board of Examiners or delegated authority for a paper in which the student has achieved
 - (a) borderline performance, or
 - (b) a D grade compensated by overall good performance in the relevant subject or the relevant subject and closely related subjects.

Note: A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean or Director of the Faculty/School/College in which the other paper is offered approves otherwise.

- (5) An IC annotation means “Incomplete”, and is awarded if a student
 - (a) does not submit a compulsory assessment item, or
 - (b) if an examination was prescribed, does not undertake the examination.
 - (6) An IC annotation is treated as a fail grade.
 - (7) The NC annotation means “No Credit” and indicates that credit for the paper has been refused as a direct consequence of a finding of misconduct.
21. **Conceded credit**
- (1) A Board of Examiners or delegated authority may award a conceded credit to a candidate for a bachelors degree who has
 - (a) undertaken the required number of papers for the degree,
 - (b) passed all compulsory papers, and
 - (c) passed all papers required for the major, specified programme or stream,
but who has narrowly failed one paper in the final year.
 - (2) The award of a conceded credit is based on the candidate’s performance in the bachelors degree as a whole as well as the paper in question.
 - (3) The conceded credit is attached to the degree as a whole (and does not affect the fail grade in the paper in question).
 - (4) A student may be awarded one conceded credit only in a bachelors degree.
22. **Notification of confirmed grades**
- (1) Confirmed grades are notified in writing by mail to the address indicated by the student as his or her examination address.
 - (2) Confirmed grades may also be published confidentially, using individual student identity numbers, by noticeboard and/or iWaikato (internet).

Part 7

Breaches and Appeals

23. Breaches

A breach of these regulations is misconduct under the *Student Discipline Regulations 2006*.

24. Appeals

- (1) A student may appeal against any decision taken under these regulations.
- (2) An appeal, comprising a written statement of the circumstances of the appeal, together with supporting evidence if available, must be submitted by the student in writing to the Director of Student and Academic Services not more than seven days after the date on which notification of the relevant decision is received.
- (3) Appeals under this section are considered and decided by the Deputy Vice-Chancellor by delegated authority of the Academic Programmes Committee.
- (4) A decision by the Deputy Vice-Chancellor is notified in writing, and is final.

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Schools and Departments to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato Calendar or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give notice of their intention of doing so in writing to the Director of Student and Academic Services. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days' notice is given, the material presented in Māori will still be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.
6. Where a candidate who intends to present material in Māori has given the requested notice of intention, he or she will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Professor of Māori or his or her nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in

consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Professor of Māori or nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments: however ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.
The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.
11. In the process of appointing a translator, the University will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall receive also any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the appropriate Pro Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply: however practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.

The University of Waikato/Te Whare Wānanga o Waikato had its origins in 1956, when a small group of visionary individuals began working towards the founding of a university for the people of the South Auckland region. In 1959 a College was established in Hamilton, as a branch of Auckland University, and in 1964 the new University of Waikato enrolled its first students. The official opening ceremony for the University took place in 1965, in the presence of the Governor-General, Sir Bernard Fergusson (later Lord Ballantrae).

From these modest beginnings, on what was largely farmland and with only a handful of staff and temporary buildings, the University of Waikato now provides about 80 qualifications to a student population of approximately 13,000, of whom more than 4,000 complete a qualification annually. In 1998 the University of Waikato started to offer courses in the CBD in Tauranga. Today, the University employs approximately 2000 staff and makes a major contribution to the social and cultural life, as well as the economy, of the Waikato and Bay of Plenty regions.

The Waikato and the Bay of Plenty, with their rich pastures and industrial backbone, are a very significant part of the economy of New Zealand. Education and research in these regions were worth \$907 million in 2006, an increase of 52% since 2001. The University's economic contribution to the Waikato and Bay of Plenty is worth \$780 million, and its operations and student expenditure support about 5% of the regional workforce. It is widely recognised that future economic growth and wealth in the Waikato and the Bay of Plenty depend heavily on the educational success of the people, and the creation of knowledge to drive innovation. These in turn depend on strong connections between the University and the communities it serves.

The University has recently embarked on the delivery of an ambitious new Vision for the future. The key themes of the Vision are Excellence, Distinctiveness and International Connectedness. We are committed to delivering a world-class education and research portfolio providing a full and dynamic university experience which is distinctive in character, and pursuing strong international linkages to advance knowledge.

The University of Waikato is building for the future on a foundation of excellence in teaching and research. Our students are taught in a research-intensive environment, by world leaders in their fields. We foster excellence in learning and scholarship, and as the creators of knowledge, we encourage our students to be leaders and innovators. We produce graduates who are globally competitive by ensuring that our academic staff are internationally connected and benchmarked against the best in the world.

Excellence with regard to educational and research outcomes relies on the recruitment, retention and support of world-class staff and the provision of world-class facilities. Academic leadership and a culture of high performance are therefore among the highest investment priorities for the University.

Closely associated with its student focus is the University's strong reputation for its excellent and innovative approach to student learning support. Its track-record of effectiveness in supporting students in the transition from foundation and bridging programmes is evident in the high rates of transfer into mainstream degree programmes and their high retention and success rates. A Pathways College has recently been established, and its primary objective is the enhancement of access to

university study through the provision of outstanding, fresh, relevant and effective pathway programmes that meet the needs of domestic and international students and the expectations of government's Tertiary Education Strategy. The Pathways programmes are specially tailored to students who intend to pursue degree-level study.

The University of Waikato invests heavily in the pastoral care of its students. The campus environment in Hamilton is shared with the wider community, and the University works closely with the Hamilton City Council and other local government agencies in the region to foster a dynamic student culture. The development and well-being of every student as an individual, and as a 'whole person', is an important dimension of the University's uniqueness. The Halls of Residence on campus, where pass rates of students are significantly higher than average, are a clear example of the University's focus on a supportive learning environment.

In the period 2007 - 2010, the University will invest over \$81 million in a capital programme to support learning, teaching and research. All of this is designed to enhance the student learning experience. A new Student Hub, to centralise all student services, is one of the major new building projects which will be phased in over the next three years.

A core element of our Vision is the development of the institution's distinctiveness. The University of Waikato is distinctive in three different respects. Firstly, it offers teaching and research excellence across a broad range of subjects. The University's national leadership in Computer Science, Management, Education and the Sciences has been clearly demonstrated through its top national research rankings in those areas. Secondly, the University has a unique reputation for being student-centred, for treating students as individuals, and demonstrating a genuine concern for their well-being. Thirdly, and in parallel, the University offers a genuinely Aotearoa/New Zealand identity, which extends beyond the excellence of its teaching and research and its student focus, and which is unique in New Zealand. The University of Waikato is aligned unambiguously with an Aotearoa/New Zealand national and cultural identity. Our three composite elements of Sustainability, Māori and Leadership, are infused through all we do, and guide our academic and strategic decision-making.

As stated in our Vision, the University is pursuing strong international linkages to advance knowledge. Over the next few years, it will invest in the establishment of a small number of elite international alliances, through which it will enhance its international reputation and profile, build staff capability through academic collaboration, enhance student learning through shared curriculum development and student exchanges, and collaborate in quality assurance, best practice and benchmarking. International strategic links will bring opportunities to increase research and commercialisation revenue. We will also use these strategic links to support our efforts, in collaboration with our regional business stakeholders, to achieve economic development and transformation outcomes.

Increasing external research investment, from national and international organisations, into the University is fundamental to growing the University's research capability, capacity and reputation. Effective engagement with industry partners, both directly and through collaborative government-funded research, is also vital for successful knowledge transfer. Contract research is an opportunity to attract external funding to build and maintain robust research platforms in areas of strategic importance for the University. In turn, these platforms provide leverage for commercialisation activities and contract research for other customers and in other fields. Through UniLink the University is proactive in bringing external investment into University research, and through WaikatoLink the University engages with relevant industries to develop research programmes which offer opportunities for commercial development.

The University of Waikato sits at the heart of a strong regional economy and takes pride in the extent to which we reflect and serve the strengths and interests of our region. Through strong links with iwi and our stakeholders, we ensure that our graduates and researchers have skills, knowledge and understandings that contribute to the ongoing prosperity and economic sustainability of the nation.

In order to develop an effective network of provision the University of Waikato is working closely alongside the polytechnics and wānanga in our region to enhance tertiary education opportunities for our people and to support the region's social and cultural development and economic sustainability. We are also engaged in plans to

collaborate closely with other universities to achieve synergistic benefits where stakeholder need has been established, but is unmet by individual institutions.

The future for the University of Waikato is exciting. Our financial base is sound and we have mapped out for ourselves a clear and agreed framework for well-informed strategic investment decisions over the medium-term. Decisions about the University's future will be underpinned by the Vision and the key themes of Excellence, Distinctiveness and International Connectedness. We will continue to work closely with our stakeholders and play an increasingly distinctive role at the centre of a network of provision across our region. We are proud of our evolution into a truly New Zealand institution which, as our motto reflects, supports our country's nation-building policies and reflects our nation's identity - Ko Te Tangata ('For the People').

The **School of Computing and Mathematical Sciences** provides a stimulating and leading-edge environment of quality relevant teaching programmes and world-class research, producing graduates well-fitted for the challenges of the contemporary and future workplace. In the 2004 and 2006 Performance-Based Research Funding (PBRF) assessments the School was ranked the top Computing and Mathematics School in New Zealand on the basis of its research performance, and the Computer Science and Mathematics departments were each ranked top in their respective subject groups.

The School of Computing and Mathematical Sciences offers the four-year Bachelor of Computing and Mathematical Sciences, the three-year Bachelor of Science and the three-year Bachelor of Computer Graphic Design (in conjunction with the Wanganui UCOL School of Design). The BCMS and BSc provide majors in Computer Science, Mathematics and Statistics, which prepare students for a range of the many professions that depend on these three disciplines. The BCMS may be awarded with Honours. Students can also study towards a four-year Bachelor of Engineering in Software Engineering within the School of Computing and Mathematical Sciences in conjunction with the School of Science and Engineering. Advanced degrees offered within the School include the Bachelor of Science with Honours, Bachelor of Computer Graphic Design with Honours, the two-year Master of Science, and the Doctor of Philosophy. One-year graduate and postgraduate diploma programmes are also available.

Further information is available on the website: <http://www.scms.waikato.ac.nz>.

The **School of Education** provides degree programmes in teacher education, sport and leisure studies, counselling, human development and education studies. It distinguishes itself among other education schools through its tradition and reputation for innovation, leadership and research.

The School was the first college of education in New Zealand to merge with a University, the first to offer a degree in sport and leisure studies, and the first to offer a teacher education programme online. Leading research undertaken by staff through the Wilf Malcolm Institute of Educational Research (WMIER) and the Centre for Science and Technology Education Research (CSTER) informs teaching and has been instrumental in shaping and developing New Zealand's curriculum, policy and practice. Moreover, in the latest NZ Performance-Based Research Funding results, when university and college of education scores are combined, the School of Education was ranked as number one in Education. The School of Education offers a portfolio of qualifications at undergraduate, graduate, and postgraduate levels. Three and four-year degree programmes in Teacher Education, along with one-year graduate diploma programmes, prepare competent, knowledgeable and critically reflective beginning teachers. The programmes have New Zealand Teachers Council approval, enabling graduates to register as teachers in New Zealand. A range of specialist postgraduate certificates, diplomas and masters degrees provide qualified teachers with programmes that are practice-related and designed for professionals. The Sport and Leisure Studies programmes cover a broad range of topics such as outdoor adventure experiences, health-related fitness and performing arts. They provide graduates with a framework that critically examines the political, cultural, social, and economic forces that influence people's behaviour in relation to sport and leisure. The School also offers majors in Education Studies and Human Development involving critical inquiry into the theories and practices of lifelong education and the study of human development across the life span. Counsellor Education programmes take a distinctive orientation emphasising what are often called narrative approaches in counselling and therapy. The Master of Counselling is approved by the New Zealand Association of Counsellors.

The **School of Law** provides an innovative, student-focused Bachelor of Laws degree in a stimulating academic environment. The School's founding goals of professionalism, biculturalism, and the study of law in context attract an exciting and diverse group of staff and students. The Law School remains at the forefront in integrating the teaching of law and technology into its LLB degree, and in providing sophisticated information technology for students. The School of Law is also at the cutting edge in preparing students for real-life practice of law by its integration of practical skills in the degree.

The Law Honours degree is designed to provide academically able students with the opportunity to pursue advanced legal research. The School offers two LLM programmes, MPhil, PhD, SJD, and LLD degrees, and, in conjunction with the Waikato Management School, the Graduate Diploma in Dispute Resolution.

Further information is available on the website: <http://www.waikato.ac.nz/law>.

The **School of Māori and Pacific Development** offers programmes in Māori language and linguistics, culture, customs, creative, and performing arts, Treaty of Waitangi and development studies. Papers offered in the School lead to the award of the Bachelor of Arts or Bachelor of Māori and Pacific Development with a major in Māori and Pacific Development, Te Reo Māori, or Tikanga Māori. Te Tohu Paetahi is a Te Reo Māori specialisation taught through the medium of Māori with the first year devoted largely to the learning of te reo Māori. The School also offers the Bachelor of Arts with Honours, Master of Arts, Master of Māori and Pacific Development, and a number of graduate and postgraduate certificates and diplomas. The School is noted for its strengths in teaching in the areas of Māori language, tikanga Māori and development studies. There is a strong, and growing, research culture and students may pursue research at masters and doctoral levels (for which a number of scholarships are available) as well as benefiting from opportunities to contribute to the School's externally funded research and development contracts.

Further information is available on the website: <http://www.waikato.ac.nz/smpd>.

The Bachelor of Engineering may be awarded with Honours. Graduate degrees offered include the Master of Engineering, Master of Science, and Master of Science (Technology), all of which may be awarded with Honours. There is also a range of graduate and postgraduate diplomas available. Over 104 students are enrolled in Master of Philosophy and

Doctor of Philosophy degrees. The School also operates 12 academic centres and units including the Honey Research Unit, the Centre for Science and Technology Education Research, the International Global Change Institute, and the Carbon Dating Unit.

Further information is available on the website: <http://sci.waikato.ac.nz>.

Throughout its 35 years, **Waikato Management School** has distinguished itself among New Zealand business schools by the relevance and rigour of its education and research, and its belief that business and enterprise are most successful when they improve the communities, societies and nations in which they operate. The School's commitment to inspiring the world with fresh understandings of sustainable success are achieved through high quality research; excellent teaching; consulting with business; extensive international connections; and the knowledge and values that graduates take into the workforce.

The latest Tertiary Education Commission's 2007 Performance Based Research Funding (PBRF) report ranked the School first in both the Management, and Accounting and Finance categories.

The School is proud that the quality of its research-led education has been independently endorsed by the world's leading three accreditation agencies: the Association for the Advancement of Collegiate Schools of Business (AACSB); Association of MBAs (AMBA); and European Quality Improvement System (EQUIS). Together these accreditations are known as the Triple Crown, and it puts the Waikato Management School in a select group of leading business schools worldwide. Less than 1% of business schools globally have earned this distinction of excellence.

The Waikato Management School offers a portfolio of qualifications ranging from undergraduate to postgraduate certificates, diplomas and degrees. The Bachelor of Management Studies is a comprehensive four-year degree that is highly ranked by employers. The Bachelor of Electronic Commerce degree offers students a sound mix of management and technical skills while the Bachelor of Communication Studies teaches students strategic and creative communication solutions. The Bachelor of Tourism focuses students on developing a responsive approach to the needs of the tourism industry and the new Bachelor of Business Analysis (Financial Analysis) is a specialised three-year degree that focuses on the quantitative areas of management. The Waikato Management School offers Honours degrees to top students, graduate and postgraduate diplomas across 27 subject areas and Masters degrees in Management Studies, Electronic Commerce, and a Master of Business Administration.

The University is proud of the fact that, from the outset, it has been fully committed to the Treaty of Waitangi. In the context of excellence, distinctiveness, and connectedness, we give effect to this commitment by:

- maintaining a strong relationship with Tainui as mana whenua,
- providing leadership in research, scholarship, and education relevant to the needs and aspirations of iwi and Māori communities,
- supporting Māori students and staff communities with a focus on leadership and academic excellence,
- providing learning opportunities for staff, students, and the wider community to participate in exploring and celebrating our shared heritage and distinctive culture.

We are determined to build on our reputation and achievements as a leader in partnership with Māori, and we are determined to further enhance the relevance and value of the University to Māori communities and to the nation as a whole.

Tihe Mauri Ora.

The following pages contain a brief introduction to the subjects and papers offered by the University. Subjects are set out in alphabetical order. A brief description may be given of the content of each paper as well as equivalents and restrictions, prerequisites and corequisites, required book information, and the internal assessment/examination ratio. Students also receive a paper outline when classes start, which provides more detail about the content, reading and assessment requirements for each paper.

In addition to the papers listed, departments may offer 800 and 900 level papers for MPhil and PhD students. Prospective students are advised to consult the Postgraduate Studies Office and the Chairperson of the Department concerned for more information.

The prescriptions refer to the papers which the University expects to offer. The availability of these papers is subject to change if the University encounters unexpected staffing or resource difficulties.

In all cases where it is necessary to cancel papers, the Policy and Procedure for the Cancellation of Papers will apply, as approved by the Academic Board. Copies are available from the Student and Academic Services Division.

In the prescriptions, each paper is identified by an alpha-numeric code.

For example:

HIST107-08B(HAM)	<i>New Zealand Histories: Fresh Perspectives</i>
HIST	This is the subject code. In this case, History.
107	This is the level of the paper, followed by a unique identifier. 100 = 100 level 200 = 200 level 300 = 300 level
08B	This is the year and semester in which the paper is taught.
(HAM)	This is the location where the paper is taught.

A **prerequisite** must be passed before a student may enrol in the paper for which the prerequisite is specified. For example, FREN231 *French Language Intermediate 1* is a prerequisite for FREN232 *French Language Intermediate 2*. Students may not enrol in FREN232 until they have passed FREN231. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean of the Faculty/School in which the other paper is offered approves otherwise.)

A **corequisite** must be taken in association with the paper for which the corequisite is specified. For example ENEL324 *Optoelectronics* is a corequisite for ENEL382 *High Speed Communications*. You may enrol in ENEL382 only if either you have already passed ENEL324 or are concurrently enrolled in it.

Equivalent papers are in effect the same papers, one of which was taught in the

past with a different paper code. For example ACCT331 *Management Accounting* is equivalent to ACCT311 *Management Accounting*. Students who have completed ACCT311 may not receive credit for ACCT331.

Restricted papers share a significant amount of common content. Students may therefore receive credit for only one of the papers listed. For example JAPA101 *Basic Japanese: Part A* is a restriction for JAPA231 *Japanese for Beginners 2: Part A*. Restricted papers may not be used to satisfy prerequisite or corequisite requirements.

The **required books** which may be listed under some of the prescriptions are a conservative list only. Additional required books may be prescribed during the academic year. Lists of recommended reading are usually included in the paper outline provided by the department concerned.

The **internal assessment/examination ratio** is provided for all papers. The ratio indicates how much of the paper is internally assessed and how much is formally examined. The ratio 1:0 means a paper is fully internally assessed, while the ratio 1:1 shows that the assessment for the paper is evenly weighted between internal assessment and an examination. Examinations are scheduled in a formal examination period. All A semester papers which are not fully internally assessed will be examined at mid-year unless otherwise specified. Tests that form part of the internal assessment requirements may be held outside normal lecture hours.

Teaching activities for all undergraduate papers are listed in the Timetable. Teaching activities, including lectures, tutorials, laboratories and workshops, are scheduled to last 50 minutes and begin on the hour until (and including) 12 noon, and at 10 minutes past the hour from 1:10 p.m. This allows a lunch break of 20 minutes from 12:50 p.m. to 1:10 p.m. for students with continuous teaching activity commitments. Normal teaching hours are between 8.00 a.m. and 6.00 p.m.

A **semester** is a period for which students enrol in papers, attend classes and submit assessment items. The University of Waikato has two standard semesters (A and B), which each normally comprise 18 weeks, and a Summer School (S), which is an intensive semester, comprising 7 or 8 weeks. The semester period includes teaching as well as any study weeks, and an examination period. The exact duration of semesters in a particular year is defined by week numbers in the [Teaching and Assessment Periods](#).

2008: A semester, weeks 9-26
 B semester, weeks 29-46
 Summer School, weeks 1-8 or 2-8

Some papers have start and end dates which differ from the standard semesters set out above. Papers which extend across both the A and B semesters are annotated as Y papers. Papers which are taught in non-standard periods have a C, D, or E etc. suffix.

The period for which a student is eligible for loans and/or allowances, is calculated on the basis of the exact start and end weeks of papers. Students are advised of the start and end dates of their papers in the relevant paper outlines.

Preamble

At the time they enrol, students are required to sign a Student Declaration agreeing to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and cooperatively. Formal procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

Preamble

Consistent with its commitment to excellence, the University has adopted this policy to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following policy provides for a more formal process to be pursued.

Complaints made under this policy will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to this policy are set out in the appendix to this policy.

Policy

1. Definitions

In this policy

complaint means a written statement submitted by a student about a matter that requires formal consideration and resolution by the University in the terms set out in this policy.

natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures.

2. Application and scope

(1) Subject to subsection (2), this policy applies to complaints about any aspect of the teaching and learning process and the broad provision made by the University to support that process.

(2) This policy may not be used

(a) where the complaint can be dealt with under the *Student Discipline Regulations 2006*, the *Assessment Regulations 2005*, or the *Harassment and Sexual Harassment Policy*, or

(b) to challenge the academic judgement of examiners.

(3) Depending on the nature of the complaint, this policy should be read in conjunction with the Staff Code of Conduct, the Code of Ethics for Academic Staff, and/or the Code of Practice for the Pastoral Care of International Students.

(4) No action will be taken on malicious or anonymous complaints.

(5) A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under this policy must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.

(6) Students and staff involved in the consideration and resolution of concerns and complaints have various rights and responsibilities, which are outlined in the appendix to the policy.

3. Informal resolution of concerns

(1) Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.

(2) A staff member with whom a concern is raised by a student is expected to

deal with the matter in an open and professional manner and to take reasonable and prompt action to try to resolve it informally.

- (3) A student who is uncertain about how to seek informal resolution of a concern is encouraged to seek advice from the Student Support Coordinator (Office of Student Life) or the Student Advocate (Waikato Students' Union).

4. Formal complaints procedures

- (1) Where it has not been possible to resolve a concern informally, a student may make a formal complaint.
- (2) A student who wishes to make a formal complaint must submit it in writing, on the prescribed form (which is available [online](#)), to the Dean or Director who is responsible for the action or matter that has given rise to the complaint.
- (3) The written complaint must be submitted within three months after the occurrence of the action or matter that has given rise to the complaint, unless the Dean or Director agrees to receive it beyond this timeframe.
- (4) If the complainant prefers not to address the complaint to the person recommended in subsection (2) it may be addressed to the Deputy Vice-Chancellor, who will address the complaint and make a decision in accordance with these procedures.
- (5) A Dean or Director who receives a student complaint must acknowledge it in writing within three working days. He or she must also lodge the complaint in the relevant School, Faculty, College or Division complaints register, using the student ID number as identifier (rather than the student's name), and must maintain a file of all documentation in relation to the consideration of the complaint.
- (6) The Dean or Director must ensure that any staff member named in the complaint receives a copy as soon as practicable.
- (7) The Dean or Director must consider the complaint in accordance with the principles of natural justice, and must ensure that all parties to the complaint are accorded the full benefit of those principles.
- (8) The process may include meetings with relevant staff and/or the complainant. Where meetings are held, the parties may, if they wish, be accompanied by a peer support person.

5. Resolution of complaints

- (1) The Dean or Director must make a decision in relation to the complaint and must notify his or her decision to the parties, in writing, within 28 days of receiving the complaint.
- (2) If the complaint involves a university process or service and if, in the opinion of the relevant Dean or Director, the complaint has substance, the Dean or Director must arrange for the relevant process or service to be reviewed, with a view to preventing a recurrence and ensuring continued improvement.

6. Appeals

- (1) Any party to a student complaint who is dissatisfied with a decision by a Dean or Director under this policy may appeal to the Deputy Vice-Chancellor.
- (2) The appeal must be submitted in writing within 28 days of the letter notifying the decision.
- (3) The Deputy Vice-Chancellor will consider the relevant documentation and may, at his or her discretion, consult the Dean or Director who made the decision. The Deputy Vice-Chancellor may also interview any parties to the complaint.
- (4) If he or she determines that the complaint process has been conducted in accordance with this policy and the outcome is appropriate, the Deputy Vice-Chancellor may dismiss the appeal. Otherwise, he or she will decide the appeal in consultation with the relevant Dean or Director and any other parties. Subject to subsections (6) and (7), the decision of the Deputy Vice-Chancellor under this section is final.
- (5) The Deputy Vice-Chancellor will notify his or her appeal decision in writing to the parties.
- (6) When he or she notifies the parties of the appeal decision, the Deputy Vice-Chancellor will inform the parties of the Ombudsman's role in relation to complaints about government organisations (including universities) that affect people in their personal capacities.
- (7) The Deputy Vice-Chancellor will also inform any staff members who are dissatisfied with a student complaint process of the steps available to them under the University's Procedure for Resolving Employment Relationship Problems and Personal Grievances.
- (8) If the original complaint was addressed to the Deputy Vice-Chancellor under section 4(4), any appeal must be made to the Vice-Chancellor. That appeal will be considered and decided, in accordance with appeal processes

consistent with those set out in this policy, by a nominee of the Vice-Chancellor.

7. Confidentiality

All processes and decisions under this policy are confidential to the parties and staff directly involved.

8. Annual report to the Academic Board

The Deputy Vice-Chancellor must submit an annual report to the Academic Board, including an overview of student complaints and decisions during the relevant year, together with any consequent recommendations with respect to the teaching and learning process and the provision made by the University to support that process.

 - (2) All members of the Library staff are empowered to enforce these regulations.

6. **Hours of opening**
The Central Library, the Education Library and the Law Library are open at the times shown in the latest edition of the respective Library Guides, and on the Library's website at <http://www.waikato.ac.nz/library/business/hours.shtml>. 7. **Admission and borrowing**
 - (1) Borrowing facilities are available to members of the University Council; Honorary Doctors, staff, retired staff and enrolled students of the University; staff and students of the Tertiary Education Alliance; and other people whose applications have been approved by the University Librarian. An annual registration fee may apply.
 - (2) Other persons may be admitted to the Library for reference and private study in accordance with such arrangements as the University Librarian may, from time to time, determine.
 - (3) All students register as borrowers for the current year at enrolment by obtaining a student identity card.
 - (4) Library notices are sent to staff and students by email. Changes of email and postal addresses must be notified immediately either via iWaikato or at the Lending Desk. Students who leave their academic year address during study breaks or vacations must notify the Library of their temporary address during these periods. Failure to read email, or change email/postal addresses, will not be taken as an excuse for non-receipt of Library correspondence.
 - (5) All readers may be required to produce a valid identity card or other identification, acceptable to the University Librarian, at any time when

- requested by the University Librarian.
- (6) No book may be borrowed from the Library without first having the loan properly recorded. A book to be borrowed must be presented, together with the borrower's University of Waikato identity card, at the Lending Desk or self-issue unit. The due date of return for each book borrowed will be indicated.
 - (7) No book will be issued at the Lending Desk within 15 minutes of closing time.
 - (8) A book will not be issued in the name of another borrower. Any variation to this procedure requires the approval of the University Librarian.
 - (9) A borrower shall be held responsible for any loss of, or damage to, a book while borrowed in her/his name and will be required to pay the cost of replacement or repair, together with any fines incurred before reporting the loss, and an administrative charge. This administrative charge will be made whether or not the book is subsequently found or returned. Loss or damage should be reported immediately to the Lending Desk. The University Librarian shall determine the amount to be paid.
 - (10) At the discretion of the University Librarian a payment made for a lost book may be refunded if the book is subsequently found and returned to the Library.
 - (11) Under no circumstances may a book be passed on to another borrower. Fines for resulting inability to respond to recall or overdue notices will be charged to the borrower in whose name the book is issued.
 - (12) Most books on the open shelves may be borrowed for a limited period.
 - (13) Books marked 'Not to be Borrowed' are for reference use only and may not be taken from the Library.

8. **Course reserves**
Some books because of heavy demand are available for use in the Library only and are referred to as Course Reserves. A borrower is required to present her/his University of Waikato identity card when using a Course Reserve. The period for which a Course Reserve is available to any one borrower may be limited according to the demand for the book, and only one Course Reserve may be borrowed at a time. A charge per hour or part thereof may be made for the late return of a Course Reserve. These books may not be removed from the Library.
9. **Recalls and reserves**
- (1) Borrowers may recall or reserve books which are on loan.
 - (2) The number of recalls or reserves that may be submitted each day by any one borrower will be at the discretion of the University Librarian.
10. **Recall notices and fines**
- (1) All books are subject to recall at any time and must be returned to the Library by the due date shown on the recall notice, whether this is sent by email or by post. Failure to respond to a recall notice by the due date shown incurs a fine for each book returned after this date, and an additional fine for each subsequent day. Other disciplinary action may also be taken against a borrower who fails to return a book ten days after the recall notice was first sent.
 - (2) A book required simultaneously by a number of borrowers is issued for seven days only, depending on the number of borrowers requiring the book. If this book is kept beyond the due date of return, fines will be incurred.
 - (3) A daily fine will be charged for any book, other than those referred to in sections 10(1) and (2) of these regulations, which is retained beyond the due date of return. A book not returned within one calendar month of this date will be regarded as lost and the borrower will then be billed for the cost of the book, together with the fines incurred and an administrative charge. This administrative charge will be made whether or not the book is subsequently found or returned.
 - (4) The Library is not obliged to notify a borrower when a book is overdue,

and a fine will automatically be charged for each book which is retained beyond the due date of return, whether or not a notice has been sent.

- (5) Where fines or invoices remain unpaid, the penalties for non-payment, as set out in the *Regulations Governing Payment of Fees and Charges* in the University of Waikato Calendar, will be applied. In addition, Library services may be withheld.

11. **Inter-library loan**

A book obtained on Interloan is subject to such special conditions as may be imposed by the lending library. A borrower not complying with these will have the privilege of using this service withdrawn.

12. **Conduct of readers**

- (1) Smoking is not permitted in the Library.
- (2) Eating and drinking are not permitted in the Library, other than in areas specifically designated.

 - minimising output of solid wastes and discharges of liquid wastes and airborne contaminants;
 - managing procurement processes to reduce the production of waste by-products and to forge links with suppliers committed to environmental goals that are aligned with this Policy.

Community Involvement and Public Profile

8. The University is proud of its reputation as an environmentally and ecologically responsible institution. It is committed to strengthening and building on this position by encouraging all staff and students to be exemplars of environmental awareness and sustainable practice to the wider community.

12. The University of Waikato is committed to promoting a diverse social and cultural environment.

Meeting the Objectives of te Tiriti o Waitangi/Treaty of Waitangi

13. The role of Māori as kaitiaki (caretakers, guardians and resource managers) is given statutory recognition in the Resource Management Act 1991.
14. The responsibilities of kaitiaki are extensive and aimed primarily at maintaining, preserving and enhancing the life-sustaining and supporting capacity, or mauri, of the natural environment.

Local Agenda 21 (1992)

22. The University seeks to develop appropriate management structures, partnerships and educational initiatives to ensure that Local Agenda 21 is adopted as a routine component of the University's day-to-day operations. In its broadest sense, Agenda 21 provides a non-binding framework for action to achieve sustainability; it owes its existence to the Rio Declaration formulated at the 1992 United Nations Conference on Environment and Development.

Resource Management Act 1991

23. The University of Waikato embodies the principles of the Resource Management Act (1991) by adopting sustainable management of natural and physical resources in order to enhance its environmental management processes and develop sustainability of resource use.

1. **Title**
These are the Personal Programmes of Study Regulations 2007.
2. **Date of effect**
These regulations are effective from 1 January 2008.
3. **Delegation of powers**
The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the Delegation of Powers Statute 2006.
4. **Definitions**
In these regulations
paper means a segment of work in a particular subject and is identified by means of a unique code number. Papers are delivered through lectures, tutorials, practicals and such other coursework as may be required by the department concerned.
programme of study means the selection of papers taken by a candidate in any one academic year for a particular qualification.
equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code.
restricted papers share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements. a **prerequisite** must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean or Director of the School of Studies/Faculty/College in which the other paper is offered approves otherwise.)
corequisites are pairs or groups of papers which must be taken together.
internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests.
a **field** means a general area of academic study that includes a number of related subjects.
a **subject** is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato Calendar. A department may offer more than one subject.
a **major** means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level.
a **supporting subject** means an additional subject to the major and is a requirement of some bachelors degrees.
a specialisation means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major.
points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student).
5. **Application**
These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters

degrees and individual paper credits.

6. Admission and re-entry

- (1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the requirements of Section 224 of the Education Amendment Act 1990.
- (2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the Admission Statute.
- (3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the Criteria for Admission to Particular Qualifications and the qualification regulations.
- (4) To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.
- (5) Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.
- (6) In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.
- (7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the Limitations Statute in the University of Waikato Calendar.
- (8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.
- (9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the *Criteria for Admission to Particular Qualifications*.
- (10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. Enrolment in a programme of study

- (1) The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
- (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
- (3) The personal programme of study of every candidate is subject to the approval of the Academic Board.
- (4) The papers for qualifications and their prescriptions are defined in the University of Waikato Calendar. Before enrolling for a paper, candidates must meet any requirements specified in the relevant prescription unless approved otherwise by the Academic Board.
- (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. Maximum student workload

- (1) The normal maximum full-time student workload for an academic year (excluding Summer School) is 120 points.
- (2) For the purposes of calculating workload, a full-year paper has a workload equivalent to half of its points value during each of the two semesters in which it is taught.
- (3) The normal maximum full-time student workload for a Summer School semester is 40 points.
- (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. Completion of a qualification

- (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations.

- (2) With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.

10. Eligibility for honours or distinction

- (1) In order to qualify for honours or distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.

11. Dissertations and theses

- (1) The Dissertations and Theses Regulations 2006 governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
- (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
- (3) For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
- (4) A dissertation or thesis must embody the results obtained by the candidate in an investigation relating to some branch of the subject or subjects being presented, or, with the approval of the Academic Board, shall take some other form proposed by the candidate's supervisors and approved by the Dean(s) and chairperson(s) of department(s) concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.
- (5) Dissertations and theses are assessed in terms of the points value they represent.

12. Date for submission of dissertations, theses and research reports

- (1) The deadline for the submission of any dissertation, thesis or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation, thesis or research report.¹
- (2) Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the Dean or the appropriate staff member(s) with delegated responsibility for Graduate Studies of the Faculty or School of Studies in which they are enrolled for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
- (3) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
- (4) Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the Dean or the appropriate staff member(s) with delegated responsibility for Graduate Studies of the Faculty or School of Studies in which they are enrolled and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. Resubmission of dissertations and theses

- (1) A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the Dean of the Faculty or School of Studies that offers the degree, and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.
- (2) An offer by a Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one semester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of honours.
- (3) A candidate's acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one semester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the particular enrolment

period in which the deadline for re-submission falls.

- (4) A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.
- (5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. **Credit - transfer credit and cross credit**

- (1) **Transfer credit** means credit towards a University of Waikato qualification for papers passed at another tertiary institution.
- (2) **Cross credit** means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.
- (3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.
- (4) Applications for credit must be submitted on the prescribed form, together with the prescribed fee, to the Director of Student and Academic Services Division.
- (5) Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.
- (6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:
 - (a) Credit from a completed qualification is normally only available towards a bachelors degree.
 - (b) Credit is not normally awarded from a completed graduate or postgraduate qualification.
 - (c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.
 - (d) Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level. Where appropriate, the Dean may, at his or her discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Dean deems a paper to be relevant to the candidate's programme of study.
 - (e) No paper may count towards more than two qualifications.
- (7) The decision to award credit in individual cases will be made by the Dean of the Faculty or School of Studies concerned.
- (8) In making decisions on credit, the Dean will consider the relevance and level of the papers completed, the regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student and Academic Services Division.
- (9) Regardless of the total number of papers which an applicant has passed at other institutions, the total credit awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.
- (10) In individual cases, the Dean or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned. Credit will not be awarded for 300 or 400 level papers required for a major in an undergraduate degree.
- (11) In individual cases, the Academic Programmes Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.
- (12) Applicants wishing to appeal a Dean's decision on credit may apply to the Director of the Student and Academic Services Division.
- (13) The consideration of an appeal will involve the Dean concerned being requested to reconsider the decision. Further appeals against the outcome of a reconsideration will be referred to the Academic Programmes Committee for consideration on behalf of the Academic Board.

15. **Completion of a University of Waikato qualification at another New**

Zealand university

- (1) A candidate who, based on the assessment of the Dean of the candidate's Faculty or School of Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Director of the Student and Academic Services Division of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.

16. Completion of a qualification of another New Zealand university at the University of Waikato

- (1) A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

Students may be permitted to enrol in a paper without enrolling for a particular qualification. This may be because they have no intention of completing a full qualification, or because the paper is being taken for the purposes of qualifying for admission to a specific qualification. Alternatively, the student may be taking the paper for credit towards a qualification at another institution. Enrolments of this nature are recorded as 'Individual Paper Credit' (IPC) enrolments.

Regulations Governing Enrolment for Individual Paper Credit (IPC)

1. A candidate who enrolls on an IPC basis is liable for all fees and charges prescribed for the paper(s) and must meet any requirements specified in the prescription and paper outline.
2. Enrolment on an IPC basis is subject to the approval of the Dean of the Faculty or School of Studies in which the paper is offered.
3. A candidate who has passed a paper taken on an IPC basis may at a later date apply to have the paper credited to a University of Waikato qualification. Approval will be based on the regulations for the qualification concerned.
4. A student enrolled on an IPC basis is subject to all general regulations of the University of Waikato.
5. A candidate who completes a paper on an IPC basis will receive official notification of his or her final results from the University of Waikato, and will be eligible to apply for an academic transcript.

The Antarctic Research Unit serves to foster interdisciplinary research within a single administrative School of Science and Engineering unit, and also serves to maintain continuity between successive annual Antarctic expeditions.

Antarctic research is co-ordinated through Antarctica New Zealand (incorporating the Ross Dependency Research Committee).

Applications are made every two years in September and all expeditions form part of the official New Zealand programme. Finance comes from a variety of sources and is at present under review. Each expedition produces a report, part of which is distributed by Antarctica New Zealand. On occasions fuller reports (ISSN 0110 2192) are produced.

The Centre for Biodiversity and Ecology Research (CBER) facilitates a coordinated, integrated approach to biodiversity and ecology research, consultancy, education and advocacy. CBER's emphasis is on New Zealand's indigenous biodiversity and natural ecosystems because the long history of evolutionary isolation has created highly distinctive and unique biota and ecosystems. CBER describes and assesses biodiversity, researches how organisms and ecosystems function, how genes, biota and ecosystems might be conserved or sustainably managed, and how to restore damaged or degraded ecosystems.

CBER hosts a Foundation for Research Science and Technology funded Outcome Based Investment (OBI) focusing on lake restoration and FRST-funded projects on 1) urban ecological restoration and 2) resilience of forest remnants. The lake restoration OBI focuses on harmful algal blooms and pest fish management. Our key research partners are Landcare Research, Geological and Nuclear Sciences, and Scion. Major end users include the Department of Conservation, NZ Fish and Game, the Ministry for the Environment, Environment Bay of Plenty, and Environment Waikato.

CBER is located within the Department of Biological Sciences and most of the staff is housed together in the top floor of R Block, in an area specially developed to facilitate the aims of the Centre. Access is via Gate 9, Hillcrest Road, Hillcrest, Hamilton.

For more information see <http://cber.bio.waikato.ac.nz> for CBER and <http://www.lernz.co.nz> for Lake Ecosystem Restoration New Zealand.

The strategic goal of the Centre for Māori and Pacific Development Research is to uphold the University's commitment to the Treaty of Waitangi by becoming a centre of research excellence capable of fostering and facilitating the self-determination, self-governance and development efforts of indigenous peoples in New Zealand, Australia, and Pacific Rim countries generally. Its research and development activities will be supported and extended through research scholarships, and through the provision of opportunities for emerging scholars to conduct doctoral and post-doctoral research. The Centre aims to form strategic alliances with institutions involved in relevant research activities both within New Zealand and overseas. It also aims to conduct research in collaboration with staff of these institutions, provide an advisory service, and facilitate the dissemination and publication of research and development findings. The Centre works to facilitate academic exchanges, conferences, hui, seminars and convocations. The Centre is also committed to working in the community, particularly on Waitangi claims and resource management issues. In cooperating to support and conduct research and to provide research scholarships, the Centre will build upon the University's existing reputation for excellence in research on Mātauranga Māori, Te Reo Māori, Tikanga Māori, Māori and Pacific Development, and comparative indigenous studies.

The Population Studies Centre generates and co-ordinates research in Population Studies and provides a service function in this field. The Centre is the only such unit in New Zealand, so its functions are national as well as regional. It also has major international and cross-national research interests. Centre staff work in three broad areas: demography, population geography and population economics. Associates of the Centre are drawn from a number of disciplines including Demography, Economics, Education, Geography, History, Psychology, Sociology and Statistics. Research on policy matters related to demographic topics includes the family, labour force and ageing, population redistribution, fertility and reproductive health in both New Zealand and overseas, mortality, the consequences of international migration and population-development issues.

Accommodation Services

Halls of Residence

The Accommodation and Conference Services Office assists students to find accommodation in the University's four Halls of Residences, Orchard Park, College Hall, Student Village and Bryant Hall. Orchard Park is a series of cottages where students cater for themselves. The other Halls are fully-catered although they all have flats where self-catering accommodation is available.

Full details about the Halls of Residence can be obtained from the Accommodation and Conference Services Office. Applications, which close on 1 October each year for the following year's accommodation. Late applications and applications made during the course of the year will be considered. Residence is for the duration of the academic year. A new application must be made if students wish to return to the Halls for the following year. A contingency deposit is required at the time of acceptance, and this is refunded, less any charges, at the end of the academic year.

Off-Campus Accommodation

The University owns a block of eight one-bedroom flats in Scotland Place (adjacent to the University) which are available to full-time graduate students. Further information concerning these flats may be obtained from the Accommodation Adviser, who is located in the Accommodation and Conference Services Office.

The Accommodation Adviser has information regarding other accommodation available in Hamilton, and is able to assist students to find private board, houses to rent, flatmates, or flats. The cost of full board in a private home is generally about \$140-\$150 per week around the University area, but can be less if situated further away. Flats and houses are listed in local newspapers and with rental agencies. The Accommodation Adviser can provide printouts of all types of student housing available in the University area. The room rental cost of sharing a house or flat usually ranges between \$85 and \$95 per week per person.

To avoid major difficulties in finding accommodation, students are advised, if possible, to visit the University prior to the commencement of the academic year to discuss their needs with the Accommodation Adviser.

Student Support Services

Student Counselling Service

Counselling staff are located in the Student Services building. Appointments may be made for counselling on any personal, study-related or vocational issue. Seminars are also offered in these areas. Enquiries and appointments may be made in person at the Student Services Reception, or by phoning the Receptionist on (07) 838-4201. A part-time Counsellor is available at the Tauranga campus. Appointments can be made at Reception or by phoning (07) 577-0620.

Chaplaincy

An Ecumenical (Interdenominational) Chaplain works on campus, and a part-time Catholic Chaplain visits the University regularly. The Chaplains conduct services, take part in both formal and informal activities on campus, and are readily available to students and staff for counselling and pastoral care. The centre for chaplaincy activities is the Lady Goodfellow Chapel.

Students with Disability

The Disability Support Service works with the rest of the University to remove barriers to learning for students with disability, and to ensure students' learning requirements are being met through the provision of information, support, services and equipment. Prospective students with disability should contact the Disability Support Service well in advance of commencing their studies to ensure that the appropriate supports are able to be put in place.

Additional information about support and services is available from the Disability Support Service office in the Student Services Building. Telephone: (07) 838-4719, Facsimile: (07) 838-4282, Email: disability@waikato.ac.nz or via the website <http://www.waikato.ac.nz/disability>.

Budget Advice and Emergency Financial Assistance

A free budgeting and financial advisory service is available to students. The Student Finance Adviser, who is located in the Accommodation and Conference Services Office, can assist with information on the costs involved in attending University and the various means of financial support available to students.

Emergency assistance is available to students experiencing severe short-term financial difficulties. This may take the form of a loan or emergency grant. A Special Assistance Fund may be available to provide grants and loans to students who can demonstrate particular need for assistance in meeting an unexpected cost as a result of their studies. Application forms are available from the Student Finance Adviser in the Accommodation and Conference Services Office.

Student Health Service

The Student Health Service is located in the Student Services building (opposite the Recreation Centre) and is staffed by four medical practitioners, four nurses and a Practice Manager. The Student Health Service is open between 8.30am and 5.00pm on weekdays throughout the year. During examination periods the Student Health Service is open until 6.00pm on weekdays and from 8.30am-5.30pm on Saturdays for examination-related issues only.

In cases of genuine emergency, students who consult a general practitioner outside Health Service hours may have the fee partly reimbursed. This emergency service applies within the Hamilton boundaries and during the academic year.

The Student Health Service is available to all students who pay the Student Services Levy. If a student does not have a Community Services Card, a fee of \$15.00 will be charged for each visit to the Student Health Service. Other ancillary charges may also apply. Students are eligible to use the Student Health Service between the following dates:

Summer School enrolment only	3 January 2008 to 22 February 2008
A Semester enrolment only	25 February 2008 to 27 June 2008
B Semester enrolment only	14 July 2008 to 20 December 2008

With proof of re-enrolment, full year or B Semester students are eligible to use the Student Health Service until the end of February 2009.

Careers and Employment Centre

The Careers Office is located in Student Job Search, next to the National Bank. Staff are available to discuss career prospects and help students make their career choices. Visits by employers are arranged throughout the year, and a series of Careers Fairs are held which promote students to future employers. Students are encouraged to check the Careers website <http://www.waikato.ac.nz/sasd/careers> for details of workshops, seminars and employer visits.

Class Representative System

The University is committed to strong and effective representation from its students. The Class Representative System has been developed to ensure that student views are reflected through involvement in University processes and participation on University committees where decisions affecting students are made. Student representatives on University committees are either elected through the Class Representative System, or are appointed by the Waikato Students' Union.

Class Representatives are elected to deal with minor academic matters which arise, and their role is to liaise between the students in the paper and the academic staff who are teaching the paper. They also have the opportunity to participate in the democratic processes of the University.

The Student Support Adviser provides training for Class Representatives and develops resources to assist them in fulfilling their roles. The Adviser, who is located in the Office of Student Life in the Student Services Building (opposite the Recreation Centre), is also available to provide information, advice and support for Class Representatives and for members of staff who deal with Class Representatives.

The Student Support Adviser can be contacted on extension 6264.

Student Recruitment and Enrolment

Course Advice and Planning

The Student Recruitment Office assists students who are unfamiliar with the University or who require assistance to plan their programme of study. Prospective students can obtain information from the Student Information Centre by phone (0800 WAIKATO or (07) 838-4176), email info@waikato.ac.nz, or in person by calling in to the Hamilton campus (The Gateway), the Tauranga campus (Durham Street), or the Auckland Office (Worldwide Tower Building, Whitaker Street).

The Student Recruitment Advisers represent the University at regional careers expos, secondary school career evenings, and other events throughout New Zealand. They provide comprehensive information, personal advice sessions and campus tours, which are available by appointment. An Open Day and several information days and evenings are held on campus throughout the year, and details are available on request. Students can explore a range of options - undergraduate study, postgraduate study, bridging courses and pathways programmes - including those that target women, mature students and Māori. Prospective students will also receive information on the range of academic and support services that are available.

Enrolment and General Information for Students

The Student Information Centre team provides information and advice to current and prospective students of the University of Waikato. The Student Information Centre is located downstairs in the Gateway building, University of Waikato, Gate 5, Hillcrest Road, Hamilton. This is the first point of contact for enquiries relating to admission criteria, applying to enrol, other general enrolment matters, examinations timetable and regulations, the payment of fees, handbooks for specific qualifications, ordering an academic transcript, and student ID cards. Current students can check and update their personal details through the iWaikato terminal located at the Student Information Centre. The Centre is open between 8.30am and 5.00pm, Monday to Friday, phone 0800 WAIKATO or (07) 838-4176, or email info@waikato.ac.nz.

Postgraduate Studies Office

The Postgraduate Studies Office is responsible for all administration associated with research degrees, namely the MPhil, doctoral degrees (PhD, EdD, and SJD) and higher doctorates (DLit, DSc, and LLD). It supports the Postgraduate Studies Committee in the development and implementation of policy concerning postgraduate studies. It also provides information and advice to students who wish to enrol, or who are enrolled, for a postgraduate degree at this University.

Detailed information for postgraduate students, including enrolment guidelines,

regulations and staff research expertise, may be found on the Postgraduate Studies website at <http://www.waikato.ac.nz/sasd/postgraduate>.

In addition to its formally assessed programmes, the Waikato Pathways College undertakes the following activities.

Community Education

Continuing Education activities provide a public service, acting as a vehicle to publicise and disseminate University research and knowledge. Equally, the College acts as a link for the community to seek information and knowledge particularly relevant to individual, local, regional and national needs.

A diverse range of professional development programmes are offered to meet the needs of the Waikato business community. These programmes are offered as public sessions and specialised in-house presentations.

A range of bridging courses are offered for adults returning to study, for intending credit course students who are unfamiliar with the university environment and for students intending to enrol or upskill in science.

English Language Programmes

English language programmes are offered for students learning English as an additional language (EAL) who are either resident in New Zealand or from other countries.

The General English programme provides English language studies to students in a more general context, and is available for enrolment on a week by week basis. Specifically designed English courses are available for organised groups from overseas. Language teacher development programmes, including the Cambridge Local Examinations Syndicate Certificate of English Language Teaching to Adults (CELTA) and specially designed short courses for language teachers from overseas are also provided.

The Student Learning Support Unit

The Student Learning Support Unit is concerned with fulfilling Waikato University's commitment to higher learning.

The Unit's goal is to help students develop, at every level and from all disciplines, the tertiary literacies and competencies that will enable them to become self-directed learners and succeed in meeting the requirements of tertiary study.

Students are helped to develop their learning, communication and mathematics skills and to overcome study-related problems. Learning support services include

- Individual tuition. Students may come to the Unit of their own volition or at the suggestion of staff.
- Group tuition. Workshops are offered on aspects of learning and contributions to courses may be requested by staff.
- An academic orientation programme for new students.
- Drop-in sessions for mathematics support.
- A range of resources including booklets and internet-based programmes.

Training of tutors and senior residents in Halls of Residence to work with students to develop their learning.

International Student Support

The International Student Support team advises and assists international students by identifying their needs, helping them find solutions, and directing them to appropriate services on and off campus. This includes personal issues, academic support, medical and travel insurance, Student Visa and Permit requirements, orientation, accommodation, and general concerns. Orientation programmes are run for all new international students prior to beginning their studies and regular information sessions are run throughout the academic year. During office hours we have a student lounge with computer access for international students' use. International Student Advisers are available to see students and appointments can be made at Waikato International; phone +64 7 838 4439, email int.centre@waikato.ac.nz, website <http://www.waikato.ac.nz/international>.

Compulsory Medical and Travel Insurance

International students must have appropriate and current health and travel insurance while studying in New Zealand, as stated in the Code of Practice for the Pastoral Care of International Students (<http://minedu.govt.nz>). This must be for the full period of study in New Zealand and enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by New Zealand Insurance Limited) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium can be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <http://www.waikato.ac.nz/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If they receive medical treatment during their visit they may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <http://www.moh.govt.nz>. The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but they may still be liable for all other medical and related costs. Further information can be viewed on the ACC website <http://www.acc.co.nz>.

New Zealand Government Scholarships

New Zealand Development Scholarships (NZDS) and NZAID-funded Commonwealth Scholarships are awarded by the New Zealand Agency for International Development (NZAID) on behalf of the New Zealand Ministry of Foreign Affairs and Trade. Open to designated countries, the scholarships are for postgraduate and undergraduate (limited) study in New Zealand in areas of

developmental relevance which will enable students to make a significant impact on return to their home countries. NZDS Scholarships have two categories; Public and Open. Students can only apply under one of these categories and must be resident in their home country at the time of application. The scholarships cover tuition fees, enrolment/orientation fees, return economy travel, medical insurance, and an allowance to meet course and basic living costs. Limited assistance may be available for dependants in New Zealand for courses of study 18 months or longer.

Further information on the scholarships and eligible countries can be found at <http://www.nzaid.govt.nz> or <http://www.waikato.ac.nz/international>.

New Zealand International Doctoral Research Scholarships (NZIDRS) and New Zealand International Undergraduate Fees Scholarships (NZIUFS) are funded by the New Zealand Government and administered by Education New Zealand. NZIDRS are open to all countries and entitlements include tuition fees and living allowances. NZIUFS are open to designated countries and cover tuition fees only. Scholarships are awarded on the basis of academic merit. Further information can be found on the website <http://www.newzealandeducated.com/scholarships>.

International Student Exchange

Waikato International administers the University's international student exchange programmes and is the central resource of promotional material from partner universities from around the world. Almost all domestic and international students who are in good academic standing should be eligible to apply for an appropriate exchange after having completed the equivalent of two semesters of full-time degree-level study at the University of Waikato. International students may not go on exchange to their home country. Exchange students are expected to be positive ambassadors for the University of Waikato and New Zealand. With prior approval, study completed at the partner university can be credited towards students' University of Waikato qualifications, although this cannot always be guaranteed in advance. In 2008, students with New Zealand citizenship or permanent residence will receive travel grants to assist and encourage them to participate in an international student exchange. Further information can be obtained from the International Relations Adviser at Waikato International.

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for University to University linkages should be discussed in the first instance with the Pro Vice-Chancellor (International). Proposals for guaranteed credit agreements need submission of full documentation to Waikato International, which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case by case basis. Memorandums of Understanding should also be submitted as proposals to Waikato International, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact Waikato International with full background information about their proposed visit. Waikato International will arrange an itinerary which meets both the visitors' and the University of Waikato's needs.

WaikatoLink Limited is the commercialisation and technology transfer office of the University of Waikato. It is responsible for protecting, managing and commercialising intellectual property generated by the University. Intellectual property can take many forms, including software, hardware, designs, processes or know-how.

All academics should be aware that their research may have commercial applications, whether this is undertaken with industry partners or research collaborators, or by the University alone. The potential to realise these may be lost if these outcomes are not evaluated for market relevance and commercial potential prior to them being made public. Publication of research can take many forms, including journal articles, presentations, media releases, workshops, conference abstracts, and discussions with other people who are not directly involved in the research. WaikatoLink can advise academics on the potential value of their research outcomes and protect these so that results may be published while retaining their potential commercial relevance and value.

Academics and their Schools stand to benefit considerably through commercialisation of their research outcomes, including direct financial benefits, further research and development funding, recognition and linkages with industry, and the satisfaction of seeing research outcomes used in 'the real world'. Notifying WaikatoLink of research plans and outcomes and protecting these appropriately is key to realising these benefits.

WaikatoLink evaluates research outcomes and concepts disclosed by academics for market potential and, if there is good market potential, determines the most appropriate path to market and drives this commercialisation process. External funding may be required to develop a technology to a commercial form. This may be provided by WaikatoLink or WaikatoLink may seek external funding from partners or investors, including venture capitalists. Commercialisation of intellectual property generated by research can take many forms. Rights to use the intellectual property can be granted to other parties, as a licence or an outright sale, joint ventures with industry partners with complementary strengths may be established, or new companies may be established to take products or services to the market.

University of Waikato technologies successfully commercialised to date include enzyme-based biotechnology products, machine learning software applied to laboratory sample analysis, wireless network technologies and honey-based wound care products.

WaikatoLink is located in the Core Facilities Building on Level One of the Waikato Innovation Park, on Ruakura Road.

For more information see <http://www.waikatolink.ac.nz>, phone (07) 858-5172, or fax (07) 857-0781.

The Hothouse

The Hothouse is WaikatoLink's Technology Development Unit; it is primarily focused on undertaking further development work on inventions and research ideas and taking them through to a stage where they are market-ready or investor-ready. The Hothouse places students in a commercial environment which focuses them on

these commercial tasks under the experienced guidance of WaikatoLink's commercial managers.

The Waikato Students' Union (WSU) is an incorporated society and a member of the New Zealand University Students' Association (NZUSA). It is governed by an elected executive, who take care of the day-to-day business of representing its members' interests to the University and the wider community and promoting educational, social, cultural, and sporting life on campus.

Academic Representation and Support

The WSU represents its members' academic interests by working with the University on such key committees as the University Council, Finance Committee and the Academic Board. At a national level, students' interests are represented by NZUSA, which is concerned with Student Job Search, government policy on user-pays education, the student loan scheme, and other issues affecting members. The WSU is also a member of the national sporting body University Sports New Zealand.

The WSU provides various scholarships like the WSU Scholarship for cultural contribution, the John Houston Memorial Scholarship for academic/cultural contribution, and the WSU sole parent/caregiver awards. The union also has a small fund to help students whose attendance at university is threatened by financial hardship.

Advocacy

The WSU has an Advocacy Service that provides professional and confidential assistance free to members. The service deals with problems ranging from academic and financial troubles to employment, tenancy and accommodation difficulties.

Other Activities and Services

The WSU represents its members' sporting, cultural, political, religious and ethnic interests by providing services for clubs and help to members wanting to set up or join a club. Affiliated clubs can apply for grants for a project or to run an event. The union publishes a weekly magazine, Nexus, and a free student diary and wall planner. It also provides other services such as a telephone for free local calls and a Ticketmaster agency which sells tickets to Waikato rugby games and various concerts. Through sponsorship, the union helps students to participate in specific events including the New Zealand University Games and Blues Awards.

The WSU organises Orientation Week at the beginning of A and B semesters to welcome new students on campus. The WSU also promotes and coordinates a range of events and activities including open forums on current and contentious issues.

Through a joint venture with the University, the WSU owns a 50% stake in U Leisure Services, which controls the Uni Rec Centre and Campus Pools.

The WSU is situated in the Student Union Building (SUB). Office hours are 8.30am to 4.30pm Monday to Friday. For more information see <http://www.wsu.org.nz>, or email wsu@wsu.org.nz.

The Golden Key International Honour Society is an international non-profit organisation, which is committed to recognising and promoting academic achievement. Membership in the society lasts a lifetime, and includes many benefits to help its members move forward with their academic careers.

The mission of the society is to recognise and encourage scholastic achievement and excellence in all fields of study, to unite with academic staff and administrators in developing and maintaining high standards of education, to provide economic assistance to outstanding members and to promote altruistic conduct through voluntary service.

Benefits from membership in Golden Key include academic recognition, career assistance, scholarships and awards, publications, leadership positions, community service activities and alumni opportunities.

Golden Key was founded in 1977 in Georgia State University, and has since been joined by over 330 collegiate chapters from Australia, Canada, Malaysia, the United States of America, Puerto Rico, the Virgin Islands, and New Zealand. In 2003 the society celebrated a decade of international development with 30 chapters in the Asia-Pacific region.

The University of Waikato Chapter was founded on 30 October 1999, and has since inducted more than 3,000 members into the society. Membership is extended to the top 15% of undergraduate degree students in the University, and the society forbids discrimination of any kind other than academic merit.

The University of Waikato Chapter's goals are

- to raise the profile of Golden Key in the community, schools and on campus
- to return benefits to the community
- to maximise the potential of University students.

The Waikato Chapter is involved in many projects, both academic and community service. In 2000, the chapter became involved with the Children of Ex-Soviet Georgia Project and received an award for Best Continuing Chapter Activity at the 2003 Regional Conference in Sydney. Daffodil Day fundraising, tree planting at Hammonds Bush and a Christmas visit to the children's hospital are regular activities. In 2003 the Chapter rose to Habitat for Humanity's challenge and built a house on campus in five days, commencing the annual Student Blitz Build. The Chapter held a Careers Fair in 2005 and again in 2006.

Membership into Golden Key can greatly enhance students' academic careers, and members are well received by many Universities and organisations around the world.

The University of Waikato Foundation is established to raise funding for the benefit of the University of Waikato from charitable and other sources as well as through appropriate forms of entrepreneurial activity. The Foundation also exists to promote education in its widest sense.

All campaigns and activities to raise funding for the University and its constituent parts are coordinated through the Foundation. Fundraising campaigns conducted by the Foundation are those which involve a major investment by the communities to which the University looks for support.

Such campaigns are intended to enhance the academic life, general operations and facilities of the University. They include campaigns to fund major new buildings or building extensions, significant additional resources or equipment, scholarships, and visiting scholars' funds. The Foundation's first major campaign, The Campaign for Waikato, was launched in 1998 and by December 2000 had raised in excess of \$11.0M.

The Foundation constitutes a mechanism by which the University and its constituent parts may receive gifts, bequests, donations and the like from benefactors. These may be for a particular and stated use, or may be contributions to the general purposes of the University. Naming rights to University buildings and facilities are handled by the Foundation. Funds raised by the Foundation are distributed by the Board of Trustees at its discretion. The wishes of benefactors will be respected in the allocation of funds.

The Alumni Association was founded in 1989 with the belief that tertiary study is not a short-term activity, but rather a lifelong link between students, graduates, staff, and their University. The Alumni Association works closely with the University with support from the Alumni Office (alumni@waikato). All graduates and staff of the University of Waikato are considered alumni and receive benefits such as *Off Campus* magazine, produced by alumni@waikato. There are currently 27,000 Waikato alumni that the University is in touch with all over the world, and this number grows by around 2,000 each year.

The Alumni Association Committee has undertaken a major review of membership of the Alumni Association. From 2008, there will be an annual membership fee of \$50.00 for those who wish to become a member of the Alumni Association and thereby qualify for extra benefits such as discounts with businesses and concession rates at the Uni Rec Centre and the University Library. There is also the option of a one-off Life Member fee of \$500.00. Please note that all graduates and staff are still considered alumni of Waikato. The University sees communication with alumni as important and will continue to send *Off Campus* and e-newsletters to all alumni. On the other hand, those alumni who pay a membership fee will become members of the Alumni Association and will have access to the same benefits as Life Members.

With support from alumni@waikato, the Alumni Association is aiming to become financially independent while actively fostering the objectives listed in its Constitution:

- to further the objectives generally of the University of Waikato
- to keep alive friendships made at the University and to provide opportunities for social interaction among graduates
- to provide a link between former students of the University and the University itself
- to promote interest in the University among its graduates and others
- to provide an avenue by which graduates of the University might influence policy on academic and other matters
- to carry out other activities of a similar or incidental nature, from time to time (in consultation with the University of Waikato Foundation) such as fundraising.

Alumni Association membership is designed for those who want to enrich their interaction with the University of Waikato with extra benefits, and for those who see a vigorous and well-funded Alumni Association as important for the University of Waikato.

Specialisations

Specialisations provide you with another opportunity to shape your qualification to your interests and needs. They can be used to broaden your knowledge, allow you to focus on an aspect related to your first major, or perhaps provide some cohesion to your elective papers in an area of interest to you.

Specialisations meet all of the requirements for a qualification but provide for further specialisation in or beyond the major (bachelors degree) or subject (honours or masters degree, graduate certificate, graduate diploma, postgraduate certificate, or postgraduate diploma).

For more information and advice on how a specialisation might fit into your programme of study, talk to a Student Advisor in your Division or the Faculty of Māori and Indigenous Studies.

Specialisations at degree level

Specialisations at degree level allow students to include complementary study within their overall programme of study. Specialisations available at degree level are:

- Advanced Pedagogy BEd
- Technology BEd

Specialisations at major or subject level

Specialisations at major or subject level allow students to focus in depth on a particular aspect of that subject. For example, within the International Languages and Cultures major, specialisations in Chinese, French, Japanese and Spanish are available.

At postgraduate level, for example within the Education subject for the Postgraduate Diploma, a specialisation in Māori Medium Teaching/Te Ropu Paerua are available.

Specialisations available at major or subject level are listed under the subject entries in the [University](#)

Enrolment for Individual Paper Credit (IPC)

Students may be permitted to enrol in a paper without enrolling for a particular qualification. This may be because they have no intention of completing a full qualification, or because the paper is being taken for the purposes of qualifying for admission to a specific qualification. Alternatively, the student may be taking the paper for credit towards a qualification at another institution. Enrolments of this nature are recorded as Individual Paper Credit (IPC) enrolments.

Regulations Governing Enrolment for Individual Paper Credit (IPC)

1. A candidate who enrolls on an IPC basis is liable for all fees and charges prescribed for the paper(s) and must meet any requirements specified in the prescription and paper outline.
2. Enrolment on an IPC basis is subject to the approval of the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the paper is offered.
3. A candidate who has passed a paper taken on an IPC basis may, at a later date, apply to have the paper credited to a University of Waikato qualification. Approval will be based on the regulations for the qualification concerned.
4. A student enrolled on an IPC basis is subject to all general regulations of the University of Waikato.
5. A candidate who completes a paper on an IPC basis will receive official notification of their final results from the University of Waikato, and will be eligible to apply for an academic transcript.

The University of Waikato

Te Whare Wānanga o Waikato is committed to academic quality, research excellence and innovative teaching programmes. It prides itself on maintaining internationally relevant, globally significant research and degree programmes while remaining very much a university that keeps the needs of the Waikato and Bay of Plenty the regions at the forefront.

The University of Waikato is distinct from other universities because the Hamilton campus is located on land returned to Waikato-Tainui following the tribe's 1995 settlement with the government. The Tauranga campus, which was opened in early 2019, is situated on Ngāi Tamarāwaho land. This distinctiveness is underpinned by the University's commitment to working in partnership with Waikato-Tainui and the iwi of Tauranga Moana specifically and through the Treaty of Waitangi to all iwi.

Vice-Chancellor Professor Neil Quigley is leading the University through a new phase of development. This includes strengthening programmes to meet national and international skills shortages, addressing global issues, such as water quality, indigenous studies and cyber security, and enhancing teaching and research quality in health and high performance sport.

Research is a key focus for the University. Students are taught in research-intensive environments by experienced lecturers, and much importance is placed on fostering an active research community and producing critical-thinking, future-focused graduates who are globally aware.

The University is the tertiary partner of the Avantidrome in Cambridge and the Adams Centre for High Performance in Mount Maunganui. Staff and postgraduate students based in these facilities work closely with High Performance athletes and the community, to enhance their performance.

The University campus in Tauranga works with tertiary partners in the Bay of Plenty region, Toi Ohomai Institute of Technology and Te Whare Wānanga o Awanuiārangi, to deliver study

programmes and research activity that provide students with pathways to lifelong learning. Tauranga is also home to the University's Coastal Marine Field Station where staff and students undertake research to enhance water quality, increase kaimoana stocks, and improve the environmental impacts on marine life.

The University of Waikato stands proudly on the world stage as an institution providing a future-focused internationally-relevant education and plays an active part in global research. The latest Quacquarelli Symonds (QS) World University Rankings place Waikato 250th and among the top 20% of institutions ranked by QS, with ten subjects ranked in the top 300. In the Times Higher Education (THE) World University Rankings, Waikato sits in the 401-500 band, =4th in New Zealand.

The University also ranks highly for student satisfaction. The International Student Barometer survey showed more than 90% of international students surveyed who studied at the University of Waikato were satisfied with their experience and over 80% would recommend the University of Waikato to others. International students were particularly satisfied with the University's response to Covid-19, with over 90% of students rating this positively.

Part of the University's success is due to the high priority it places on student pastoral care. The development and wellbeing of every student is an important dimension of the institution's uniqueness. Staff have a strong reputation for excellence and take an innovative approach to student support. Staff have a track-record of effectiveness for supporting students as they transition to university study.

While the University of Waikato has renowned strength in the teaching and research of te reo Māori and tikanga Māori, its Māori teaching and research expertise can also be found across the various disciplines including Māori psychology, business, education, law, social sciences, science and computer science.

The Māori student communities on campus are vibrant and are key contributors to campus events, and there are many University programmes and activities dedicated to supporting Māori student achievement and success.

Over the past few years, the University implemented a new curriculum, which was reviewed and revitalised to ensure teaching continues to be relevant to student, employer and societal needs. As a result, work-integrated learning programmes and compulsory work experience are now included in all undergraduate degrees.

Helping to support students making the transition to university-level study is the University's Study Advising programme which is designed to help new students over their first year of undergraduate study. Every first year student is automatically allocated a dedicated staff member – a Study Advisor. Most Study Advisor's will be from the student's main area of study, but all have roles aimed at helping students to succeed in their study goals.

The University of Waikato is dedicated to supporting student success. Along with the Study Advising Programme, we have a variety of pastoral services, that are available to students to help them achieve their educational goals.

International Students

The following information is a general guide for international students wishing to enrol at the University of Waikato. Further information is available on the website: www.waikato.ac.nz/study/international/.

Email: international@waikato.ac.nz .

Admission

All students are required to meet the entry requirements for admission, as set out in the [Admission Statute 2016](#). Applicants whose first language is not English or Māori are also required to provide satisfactory evidence of English language proficiency, as set out in the [English Language Requirements for Admission](#). Scores can vary according to the qualification sought.

International students apply for admission online at www.waikato.ac.nz/study/apply

Permanent residents of Australia and New Zealand, Australian citizens, and students from the Cook Islands, Tokelau or Niue who are New Zealand citizens, are treated as New Zealand students and do not need to apply for admission as international students.

Please note that to be eligible for domestic tuition fees, permanent residents and citizens of Australia must be living in New Zealand for the duration of the study. Domestic tuition fees information is available at www.waikato.ac.nz/study/costs/tuition-costs-domestic.

All international students enrolling in an undergraduate programme must hold as a minimum requirement, an equivalent university entrance qualification as set out online at www.waikato.ac.nz/study/enrolment/undergraduate-international.

Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or foundation courses in order to satisfy these prerequisites. Applicants in this

situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.

Code of Practice

The University of Waikato has agreed to observe and be bound by the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021*. Copies of the Code are available from the New Zealand Qualifications Authority website <https://www.nzqa.govt.nz/providers-partners/tertiary-and-international-learners-code/>.

Students should refer to the Code of Practice for their specified responsibilities and to the International Student Handbook or this Calendar for University procedures and recommendations.

Tuition Fees and Charges

1. International students are required to pay full cost tuition fees. Students should refer to the [Table of Fees and Charges](#) for other fees and charges that may be applicable.
2. New international PhD students may be eligible for domestic fees for their studies. Conditions apply. For more information, see the [Higher Research Degrees](#) website.

New Zealand Immigration Requirements

1. All international students must hold a valid student visa for the duration of their studies. A visitor visa is only valid for courses lasting less than three months in total. Further information regarding the various requirements of Immigration New Zealand (INZ) can be obtained from the Immigration New Zealand website, or the nearest New Zealand High Commission or Embassy.
2. An offer of place at the University of Waikato does not guarantee that the student will be issued with a student visa.
3. International students are required to obtain a student visa before travelling to New Zealand. Students must provide evidence to show they can have enough money to support themselves while they study in New Zealand. The source of fund is considered stable and there are no unexplained lump sum deposits. For more information please see [here](#).
4. The University is required to report to INZ those students who are not fulfilling the requirements of their student visa, which includes completing compulsory course components and passing papers.
5. Full details of immigration requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available from INZ, and can be viewed on their [website](#).

Pre-paid Tuition Fees Policy

1. As indicated above, international students are required to obtain their student visa and pay their tuition fees before enrolment can be completed. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii)

- completes the first trimester of study and does not enrol in the second trimester of study and they have a student visa valid for one year, with the exception of students enrolling in B trimester then A trimester.
2. All students must apply in writing for a refund of their pre-paid tuition fees to the Director of Student Services Division.
 3. Students are required to supply a verified copy of their passport and student visa, and a copy of their University of Waikato receipt(s) with their application for a refund.
 4. The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.
 5. Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.
 6. Where a student will be returning to their home country, the funds will be refunded in one of two ways:
 - (a) an overseas bank draft sent to the overseas address provided by the student
 - (b) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party.
 7. Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either:
 - (a) upon evidence of a valid INZ visa to remain in New Zealand, or
 - (b) confirmation that INZ has discharged the University of Waikato's duty under the original student visa.
 8. If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

International students who withdraw their application or their enrolment before the start date of their programme will receive a 100 percent refund of pre-paid tuition fees less a \$500 Administration Fee. Students who withdraw their application or their enrolment after the start date of their programme but during the period for deletion of papers (refer to Clause 12 of the [Change of Enrolment Regulations 2012](#), will receive a 100 percent refund of pre-paid tuition fees less a \$2,000 Administration Fee.

Compulsory Medical and Travel Insurance

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand, as stated in the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021*. Under the Immigration New Zealand policy, this must be at least for the duration of your student visa. Enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by Allianz New Zealand) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium will be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <https://www.waikato.ac.nz/study/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <https://www.health.govt.nz>. The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website www.acc.co.nz.

New Zealand Government Scholarships

The New Zealand Aid Programme (NZAP) is the New Zealand Government's International Aid and Development Programme managed by the Ministry of Foreign Affairs and Trade. Education is vital to the New Zealand Aid Programme's mission of supporting sustainable development in order to reduce poverty and contribute to a more secure, equitable and prosperous world. Scholarships are available to citizens from selected developing countries to undertake vocational training or tertiary level study in their home country, in New Zealand, or in the Pacific region. These scholarships enhance the skills, training and knowledge of individuals, and build their capacity to contribute to the sustainable development of key areas in their home country. The eligibility criteria and application process can be found on: <https://www.mfat.govt.nz/en/aid-and-development/new-zealand-government-scholarships/>.

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for university to university linkages should be discussed in the first instance with the International Office. Proposals for guaranteed credit agreements need submission of full

documentation to the International Office which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case-by-case basis.

Memorandums of Understanding should also be submitted as proposals to the International Office, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact the International Office with full background information about their proposed visit. The International Office will assist in arranging an itinerary which meets both the visitors' and the University of Waikato's needs.

Please contact the International Office.

Ethical Conduct in Human Research and Related Activities Regulations

1. **Title**

These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.

2. **Purpose**

Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.

3. **Date of effect**

These regulations are effective from 1 July 2008.

4. **Scope**

(1) These regulations apply to all

(a) staff of the University of Waikato

(b) students of the University of Waikato, and

(c) any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.

(2) Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Divisional or Faculty of Māori and Indigenous Studies committee.

(3) Under these regulations, all research and/or related activities are required to have formal ethics review and approval.

(4) Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.

(5) Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University *Staff Code of Conduct* and should be consistent with the spirit of these regulations.

5. **Definitions**

In these regulations

research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the

findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:

teaching means teaching in lectures, tutorials, demonstrations, and related educational research

consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant

evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity

publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means

organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, iwi groupings, schools, and professional societies

researcher means the person undertaking research and/or related activities

harm includes physical, psychological, social, economic, or cultural harm to participants

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures

- (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
- (2) Researchers must submit applications for approval for their research or related activity to one of the delegated relevant Divisional or Faculty of Māori and Indigenous Studies committees (see section 22 of and Appendix 2 to these regulations) within the University.
- (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
- (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Division or the Faculty of Māori and Indigenous Studies (see Appendix 3 to these regulations).
- (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not

begin the research and/or related activity again until the necessary approval has been obtained.

- (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. **Responsibility for ethics in research and related activities**

- (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
- (2) If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
- (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. **Value of research or related activities and the public interest**

- (1) A researcher must be able to justify to their peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
- (2) A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Senior Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Senior Deputy Vice-Chancellor (see section 12 of the [Dissertations and Theses Regulations 2020](#)).

9. **Informed consent of participants**

- (1) Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
- (2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of their involvement and freely agreed to it in accordance with the principles outlined in this section.
- (3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.

- (4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
- (a) A researcher must inform prospective participants of all information relevant to the decision to participate including
 - (i) their right to decline to participate in the research and/or related activities or any portion or any part of these
 - (ii) the form in which the findings will be published
 - (iii) duration and security of data storage
 - (iv) their right to withdraw any information they have provided up until analysis has commenced on their data
 - (v) their right to access and correct personal information
 - (vi) the process for withdrawing information they have provided.
 - (b) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).
 - (c) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
 - (d) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.
 - (e) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between them and the person whose consent is required.
 - (f) A researcher who seeks the proxy consent of another person on behalf of a prospective

participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant themselves in the process and the decision about consent.

- (g) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
- (h) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
- (i) A researcher must inform participants of their right of access to any data that may have been collected from or about them.
- (j) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. Large random sample surveys and informed consent

- (1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
- (3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins
 - (a) the anticipated length of the research or related activity
 - (b) the general purpose of the research or related activity
 - (c) the forms in which the data might be published
 - (d) an assurance that the participant will not be identified in any publication or dissemination of research findings.

11. Field research and informed consent

- (1) 'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
- (2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.
- (3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent

from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.

- (4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. Archiving of data, privacy, storage, and use of information

- (1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
- (2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation
 - (a) participants and informants must not be publicly identified or identifiable without their explicit consent
 - (b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
 - (c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information
 - (d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)
 - (e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
- (4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail
- (5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal

information collected for the research and/or related activity is to be stored.

- (6) Data must not be made available to persons or for purposes that are not named on the application.

13. **Minimisation of harm**

- (1) A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.
- (2) A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.
- (3) 'Harm' in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.
- (4) Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.
- (5) If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.

14. **Limitation of deception**

- (1) Deception of participants conflicts with the principle of informed consent, but in some research and/or related activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.
- (2) Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the research and/or related activity.
- (3) A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.

15. **Social and cultural sensitivity**

- (1) A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.
- (2) Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
- (3) An application for ethics review under these regulations must demonstrate how the

researcher has responded to the advice received from the person consulted.

- (4) Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.

16. **Exploitation of relationships**

- (1) A researcher must not exploit the relationship between researcher and participant.
- (2) A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.
- (3) 'Exploitation' in this context means the seeking or obtaining of money, goods, services, favours, information or relationships that have no direct bearing on the stated research and/or related activity aims or data gathering.
- (4) Where a researcher is a staff member and the prospective participant a student, the researcher must not exploit that relationship and must strive to ensure that the student is not disadvantaged through their participation or refusal to participate, academically, professionally, or otherwise.

17. **Respect for property rights**

- (1) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe legally determined property rights.
- (2) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe culturally determined property rights to the extent possible and reasonable in all circumstances.
- (3) Property rights in this context may apply to land, goods, works of art and craft, images, and intangible materials such as spiritual treasures, music, information, and intellectual property (see Appendix 4 of these regulations).
- (4) A researcher must identify and address any issues associated with property rights and ownership of data at the time they seek informed consent and monitor these issues throughout the research process.

18. **Payment for participation**

A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours, or in any other form of remuneration or form of hospitality appropriate to the engagement, either directly or indirectly, unless the payment is approved by the appropriate approving authority (see section 22 of and Appendix 2 to these regulations).

19. **Professional codes of ethics**

A researcher must ensure that their research or related activity complies with any professional code of ethical practice or standard relevant to the research and/or related activity.

20. **University research and/or related activities in schools and early childhood services**

A researcher involved in research and/or related activities in schools or early childhood services must comply with the [Guidelines for Observation and Research in Schools and Early Childhood Services](#)  (see Appendix 5 to these regulations).

21. Declaration of potential conflict of interest

- (1) A researcher must, in an application submitted under section 4 of these regulations, declare any potential conflict of interest.
- (2) 'Conflict of interest' occurs where a researcher or related party is, or is reasonably likely to
 - (a) obtain an unfair, inappropriate, or unethical professional, commercial, or personal advantage as a result of or in connection with the research and/or related activity
 - (b) be in a position in relation to the activity or the participants that could appear to affect the researcher's impartiality in the research and/or related activity;
 - (c) obtain a direct or indirect pecuniary benefit or interest as a result of or in connection with the research or related activity.
- (3) If the research and/or related activity is commissioned or sponsored, the researcher must ensure that the commission or the sponsorship
 - (a) is declared to the participants and in any published findings

22. Authority for ethical approval and monitoring

- (1) Authority for administering these regulations rests with the University of Waikato Human Research Ethics Committee.

Part 1 General

1. Title

These are the Assessment Regulations 2016.

2. Date of effect

These regulations are effective from 1 January 2016.

3. Definitions

In these regulations

Assessment means the internal assessment (details of which are prescribed in the relevant paper outline) and, if one is offered, the examination that a student must undertake in order to be awarded a grade for the paper concerned

Chief Examiner means the person appointed by the relevant Head of School or Dean as the

chief examiner for the paper concerned; (the names of chief examiners are available from the Director of Student Services)

Compulsory Assessment Item means an assessment item that is identified as compulsory in the relevant paper outline, and that a student must submit in order to be eligible to pass the paper

Examination means the portion of the assessment for a paper that a student undertakes under formally supervised conditions, at a time and place notified by the Student Centre

Examiner means the person or persons designated in the relevant paper outline as the lecturer or convenor of the paper concerned

Internal Assessment means the portion of the assessment for a paper that is assigned, supervised and marked internally within the relevant department; it may include assignments, practical work, work in tutorials, seminars, written or oral tests, recitals, performances or attendance requirements

Paper Outline means the document distributed by the relevant department providing detailed information about the nature and requirements of the paper

Plagiarism means presenting as one's own work the work of another, and includes the copying or paraphrasing of another person's work in an assessment item without acknowledging it as the other person's work through full and accurate referencing; it applies to assessment presented through a written, spoken, electronic, broadcasting, visual, performance or other medium

Special Examination means an examination prepared and scheduled for a student whose application for special consideration under section 17 of these regulations has been accepted as valid by the Special Consideration Committee.

4. **Application**

These regulations apply to papers at 0, 100, 200, 300, 400, 500, and 700 levels.

5. **Fees**

The fees referred to in these regulations are prescribed in the [Table of Fees and Charges](#).

6. **Eligibility to submit assessment**

A student must be enrolled for a paper in order to be eligible to submit assessment in it.

7. **Use of particular languages for assessment**

- (1) Unless specified otherwise in the relevant paper outline, students must submit assessment in either English or Māori.
- (2) The presentation of assessment in Māori is subject to the [Policy on the Use of Māori for Assessment](#).

8. **Plagiarism and cheating**

- (1) Guidelines for sourcing and referencing styles appropriate to particular disciplines are available from the Faculties or School of Studies and the Library.
- (2) Plagiarism is prohibited.

(3) It is not a defence against a charge of plagiarism for a student to argue that they did not act intentionally in appropriating the writing or work of another person; however, the extent to which the student is judged to have plagiarised intentionally, and the level and standard of scholarship that might reasonably be expected of the student, may be factors in the determination of any disciplinary action to be taken against the student.

(4) Cheating in any matter connected with assessment is prohibited.

9. **Use of the same material for different assessment items**

Unless approved otherwise by the examiner of the paper concerned, a student must not submit for assessment material that is substantially the same as material submitted for assessment for a different paper, or for a paper which the student has attempted and/or completed previously in substantially the same form and is repeating.

Part 2

Conduct in Examinations

10. **Presence and identification at examinations**

(1) A student may attend an examination only if he or she is enrolled for the paper for which it is prescribed.

(2) An electronic device that

(a) makes use of an audible alarm, or

(b) has facilities for transmission or reception of information, or

(c) is capable of storing and displaying information

is prohibited in the examination room, unless it is turned off and stored separately from the

student, or is an item authorised by an Examiner under subsection 11(3) of these regulations.

- (3) A student may not bring into the examination room any of the following items unless authorised in writing by the Examiner:
 - (a) paper
 - (b) books
 - (c) calculators

16. **Special consideration in respect of internal assessment**

- (1) Applications for special consideration in respect of internal assessment are considered and decided by the Examiner of the paper for which the assessment is prescribed.
- (2) An application for special consideration in respect of an internal assessment must be made in writing to the relevant Examiner not later than three days after the date on which it is due.
- (3) The application must be supported by evidence that is acceptable to the Examiner; the evidence may be in the form of
 - (a) a medical certificate for an illness or injury affecting the period relevant to the particular assessment item, or
 - (b) evidence of any other circumstance and its effect on the student over the period relevant to the particular assessment item.
- (4) If the Examiner accepts that the circumstances documented in the application are valid, they may
 - (a) estimate a mark for the assessment item, or
 - (b) if it is practicable to do so, offer the student an opportunity to submit or repeat the original assessment item or to submit an alternative assessment item.
- (5) A student may not be awarded estimated marks under subsection 16(4) of these regulations for more than 33% of the overall internal assessment for a paper.
- (6) If the Examiner does not offer any of the options under subsection 16(4) of these regulations, the student may apply under the [Change of Enrolment Regulations 2012](#) to withdraw from the paper on medical or compassionate grounds.
- (7) A student may appeal to the Chief Examiner against any decision by an examiner under this section.
- (8) An appeal to the Chief Examiner must be made in writing by the student not more than seven days after they have received notification of the relevant decision by the Examiner.
- (9) Where an Examiner is also the Chief Examiner, a student may appeal directly to the Director of Student Services under the provisions of section 24 of these regulations.

17. **Special consideration in respect of examinations**

- (1) Applications for special consideration in respect of examinations are considered and decided by the Special Consideration Committee.

- (2) In order to be eligible for special consideration in respect of an examination, a student must have submitted all compulsory items of internal assessment for the relevant paper.
- (3) An application for special consideration in respect of an examination must be submitted to the Student Centre on the prescribed form not later than three days after the date of the examination.
- (4) The application must be accompanied by evidence of the circumstances relating to the application.
- (5) In the case of injury, illness, bereavement or trauma, the evidence required under subsection 17(4) of these regulations must be in the form of a report that relates to a consultation within 24 hours of the examination between the student and a medical practitioner, midwife, dental surgeon or psychologist, or between the student and a counsellor who is recognised for this purpose by the Special Consideration Committee. (Details of the names of counsellors recognised for this purpose are available from the Student Centre.)
- (6) In the case of any circumstance other than those described in subsection 17(5) of these regulations, the evidence must be in the form of a statement of the nature and time of the circumstance, written by the student.
- (7) The Director of Student Services may, at their discretion, request the student to submit a statutory declaration affirming details of the circumstances relating to the application.
- (8) Where an application is accepted as valid by the Special Consideration Committee, the Chief Examiner will be requested by the Student Centre to consider the assessment of the student in the relevant paper.
- (9) The Chief Examiner may at their discretion
 - (a) estimate a grade for the paper, or
 - (b) offer the student the opportunity to undertake a special examination.
- (10) If the Chief Examiner does not estimate a grade for the paper under subsection 17(9) of these regulations, and it is not practicable to offer a special examination (either because of the nature of the assessment or the continuing circumstances of the student), the student may apply under the [Change of Enrolment Regulations 2012](#) to withdraw from the paper on medical or compassionate grounds.
- (11) Where a student demonstrates to the Director of Student Services that, because of circumstances beyond their control, they are not able to accept the offer of a special examination, the student may apply under the [Change of Enrolment Regulations 2012](#) to withdraw from the paper on medical or compassionate grounds.

- (3) The application must be accompanied by all items of internal assessment for the relevant paper that have been returned to the student.
- (4) A review of grade involves a re-marking of all items of assessment that contribute to the final grade and a re-calculation of marks, or the student may elect to have their exam script only reviewed.
- (5) A review of grade results in a grade either being left unchanged, raised or lowered.
- (6) The fee for a review of grade is refunded if the review results in a change of grade.

19. **Return of examination script**

- (1) A student may apply for the return of his or her marked examination script.
- (2) An application for the return of an examination script must be submitted to the Student Centre online, as prescribed in the [Copies of Examination Scripts](#), no later than three months after the date of the examination concerned. - (6) A restricted pass (“RP”) grade may be awarded at the discretion of a Board of Examiners or delegated authority for a paper in which the student has achieved
 - (a) borderline performance, or
 - (b) a D grade compensated by overall good performance in the relevant subject or the relevant subject and closely related subjects.

Note: A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Head of School or the Dean of the Faculty or School in which the other paper is offered approves otherwise.

- (2) The award of a conceded credit is based on the candidate’s performance in the bachelors degree as a whole as well as the paper in question.
- (3) The conceded credit is attached to the degree as a whole (and does not affect the fail grade in the paper in question).
- (4) A student may be awarded one conceded credit only in a bachelors degree.

22. **Notification of confirmed grades**

- (1) When assessment results are returned to a student those results will include a percentage mark, except where a P (ungraded pass) or F (ungraded fail) mark is given.

- (5) Appeals under this section, that relate to papers required by the Postgraduate Certificate in Professional Accounting or the Chartered Accountancy endorsement within the Master of Professional Accounting, are considered and decided by the Chartered Accountants of Australia and New Zealand. A decision under this section is notified in writing, and is final.

Part 8

Grade Reconsideration under COVID-19

25. Scope and application

- (1) Part 8 sets out the process for the reconsideration of a paper grade, in its entirety, due to circumstances related to COVID-19.
- (2) This Part applies to papers where a date between 30 March 2020 and 28 June 2020 inclusive, falls between the paper's start and end dates inclusive. In exceptional circumstances, papers outside of this criteria may be considered.
- (3) Part 8 does not apply to dissertation or thesis papers.
- (4) An application under Part 8 does not affect the ability of a student to make an application under any other part of these regulations.

26. Grounds for grade reconsideration

If, due to circumstances related to COVID-19, and beyond their control,

- (a) a student's performance in a paper has been impaired, and
 - (b) the student believes their final grade has not sufficiently taken account of that impairment,
- the student may apply for grade reconsideration.

27. Grade reconsideration process

- (1) An application for grade reconsideration must be made to the Grade Reconsideration Committee within 10 working days of a final grade being notified to the student.
- (2) The application must describe the nature and circumstances of the impairment, with supporting evidence where applicable.
- (3) Where the Grade Reconsideration Committee accepts an application for grade reconsideration, the relevant Board of Examiners or delegated authority, will be required to reconsider the final grade of the student for the relevant paper.

- (4) The Board of Examiners may at their discretion

Policy on the Use of Māori for Assessment

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Divisions or the Faculty of Māori and Indigenous Studies to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato [Catalogue of Papers](#) or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give at least 14 day's notice of their intention of doing so in writing to the Student Centre. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days' notice is given, the material presented in Māori will still

be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.

6. Where a candidate who intends to present material in Māori has given the requested notice of intention, they will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Deputy Vice-Chancellor Māori or their nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Deputy Vice-Chancellor Māori or their nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however, ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the Deputy Vice-Chancellor Māori or their nominee will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall also receive any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the Senior Deputy Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however, practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.

Prescriptions for Papers

The following page contains a brief introduction to the subjects and papers offered by the University. Subjects are set out in alphabetical order. A brief description may be given of the content of each paper as well as equivalents and restrictions, prerequisites and corequisites, required book information, and the internal assessment/examination ratio. Students also receive a paper outline when classes start, which provides more detail about the content, reading and assessment requirements for each paper.

In addition to the papers listed, departments may offer 800 and 900 level papers for MPhil and PhD students. Prospective students are advised to consult with Te Mata Kairangi School of Graduate Research and the Head of School or Dean concerned for more information.

The prescriptions refer to the papers which the University expects to offer. The availability of these papers is subject to change if the University encounters unexpected staffing or resource difficulties. For up-to-date details of 2024 offerings, see the online Catalogue of Papers at papers.waikato.ac.nz.

In all cases where it is necessary to cancel papers, the Policy and Procedure for the Cancellation of Papers will apply, as approved by the Academic Board. Copies are available from the Academic Office.

In the prescriptions, each paper is identified by an alpha-numeric code.

For example:

HISTY107-24A (HAM)

*New Zealand
Histories: Fresh
Perspectives*

HISTY	This is the subject code, in this case History
107	This is the level of the paper, followed by a unique identifier. 100 = 100 level 200 = 200 level 300 = 300 level 500 = 500 level
24A	This is the year and trimester in which the paper is taught.
(HAM)	This is the location where the paper is taught.

A **prerequisite** must be passed before a student may enrol in the paper for which the prerequisite is specified. For example, JAPAN231 *Basic Japanese 1* is a prerequisite for JAPAN232 *Basic Japanese 2*. Students may not enrol in JAPAN232 until they have passed JAPAN231. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise).

A **corequisite** must be taken in association with the paper for which the corequisite is specified. For example ENGEE231 *Electrical Circuits* is a corequisite with ENGEN201 *Engineering Maths and Modelling 2*. You may enrol in ENGEE231 only if you have either already passed ENGEN201 or are concurrently enrolled in it.

Equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code. For example ACCT331 *Management Accounting* is equivalent to ACCTN303 *Management Accounting*. Students who have passed ACCT331 may not enrol in and receive credit for ACCTN303.

Restricted papers share a significant amount of common content. Students may therefore receive credit for only one of the papers listed. For example DIGIB200 *Tools for Managing Projects* has a restriction with PRMGT301 *Fundamentals of Project Management*. Restricted papers may not be used to satisfy prerequisite or corequisite requirements.

The **required books** which may be listed under some of the prescriptions are a conservative list only. Additional required books may be prescribed during the academic year. Lists of recommended reading are usually included in the paper outline provided by the department concerned.

The **internal assessment/examination weighting** is provided for all papers. The weighting sets out how much of the paper is internally assessed and how much is formally examined, as percentages of the total mark. The weighting 100:0 means a paper is fully internally assessed, while the ratio 50:50 shows that the assessment for the paper is evenly weighted between internal assessment and an examination. Examinations are scheduled in a formal examination period. All A trimester papers which are not fully internally assessed will be examined at mid-year unless otherwise specified. Tests that form part of the internal assessment requirements may be held outside normal lecture hours.

Teaching activities for all undergraduate papers are listed in the Timetable. Teaching activities, including lectures, tutorials, laboratories and workshops, are scheduled to last 50 minutes and begin on the hour until (and including) 12 noon, and at 10 minutes past the hour from 1:10 p.m. This allows a lunch break of 20 minutes from 12:50 p.m. to 1:10 p.m. for students with continuous teaching activity commitments. Normal teaching hours are between 8.00 a.m. and 6.00 p.m.

A **trimester** is a period for which students enrol in papers, attend classes and submit assessment items. The University of Waikato has two standard trimesters (A and B), which each normally comprise 17 weeks. There are also two intensive summer teaching periods - Summer School 1 (H trimester), normally comprising seven weeks in January/February, and Summer School 2 (G trimester), normally comprising six weeks in November/December. The trimester period includes teaching as well as any study weeks and an examination period. The exact duration of trimesters in a particular year is defined by week numbers in the [Teaching and Assessment Periods](#).

2024:	A trimester	weeks 9-25
	B trimester	weeks 28-44
	C trimester	weeks 46-6
	D trimester	weeks 9-44
	G trimester	weeks 46-51
	H trimester	weeks 1-7

Some papers have start and end dates which differ from the standard teaching periods set out above. Papers which extend across both the A and B trimesters are annotated as D papers. Papers which are taught in non-standard periods have a X, I, or J etc. suffix.

The period for which a student is eligible for loans and/or allowances, is calculated on the basis of the exact start and end weeks of papers. Students are advised of the start and end dates of their papers in the relevant paper outlines.

[Part 5: Reporting](#)

Preamble

At the time they enrol, students are required to agree to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and co-operatively. Discipline procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

Student Complaints Procedures

Preamble

Consistent with its commitment to excellence, the University has adopted these procedures to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, paper convenor or Dean or Head of School or equivalent with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following procedures provide for a more formal process to be pursued.

Complaints considered through these procedures will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to these procedures are set out in the appendix.

Procedures

1. Definitions

In these procedures

complaint means a written statement submitted by a student about a matter that requires formal consideration by the University under the terms set out in these procedures

natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures.

student means a person enrolled at the University of Waikato.

- (5) A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under these procedures must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.
- (6) Students and staff involved in the consideration of complaints have various rights and responsibilities, which are outlined in the appendix to these procedures.

3. Informal resolution of concerns

- (1) Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.

The University Library

Tēnā koutou katoa and welcome to the University of Waikato Library. Our library strives to be inclusive for all. Whether you're on campus or on the other side of the world, we have resources and services to empower you on your academic journey.

In support of the University's ambition to be the first anti-racist institution in Aotearoa, we have six Māori and Pacific focused roles. These awesome colleagues help us to integrate kaupapa and mātauranga Māori in our policies, processes and services.

Our physical spaces

Our Hamilton campus has [Central Library](#) and [Teaching Resources Library](#) and we provide a [distance library service](#) to Tauranga campus.

During our [open hours](#) anyone can enjoy our physical spaces and consult our physical collections. Borrowing physical items and using electronic resources is restricted to [Library members](#) - current staff, students, associates and alumni. After hours access is restricted to current staff and students. In Hamilton, we have a bookable whānau study room for students accompanied by under 14's.

Our 24/7 spaces have a kitchenette, snack machines, computers, individual and group study areas, accessible toilets, showers, and equipment to serve accessibility requirements. Members can borrow Chromebooks, headphones, as well as [audiovisual equipment](#).

Help to find what you need

Whether you contact us online, or in person, you will receive a friendly "kia ora" from one of our friendly staff. Your query may then lead you to one of our specialised library teams.

We can help you navigate the scholarly environment to locate, evaluate and cite resources for study and research. We offer self-paced online workshops and partner with teaching staff to deliver information literacy sessions for a particular class or cohort.

Making research open

We are the first university in Aotearoa to [state our position](#) on making research as open (and freely available to all) as possible (and as closed as necessary) for the benefit of society. We partner with researchers to achieve these goals, and provide advice and support around Open Access, indigenous data sovereignty, research data management, strategic publishing, research profiles, and research impact. Our work supports the University's Open Research Statement and efforts globally to increase the visibility and availability of research.

Our collections

Our online, print and multimedia collections cover all of the disciplines taught at the University. While many of our resources are online, some are available only in print.

- Physical items in the general collection are located on Level 3.
- Level 4 houses the physical items of the [Mātangireia](#) collection with many more items available online. This collection contains contemporary and historical Māori, Pacific, Aotearoa and Indigenous resources and services and is underpinned by kaupapa Māori values. Mātangireia includes iwi histories, Māori Land Court Minute Books, the Michael King Collection, and [Mahi Mareikura](#) – home to the taonga and works of Dr. Pei te Hurinui Jones, expert in Māori language revival and Māori cultural knowledge.
- Complementing Mātangireia is [O Neherā](#), a digital collection of historical materials including images, documents, and firsthand accounts which provide unique local insights into Waikato and Aotearoa. Information about our [physical archival collections](#) is also available.
- Level 4 also holds our physical [Law Library](#) of primary and secondary material designed to support Te Piringa Faculty of Law. This collection has a particular emphasis on New Zealand and other key Commonwealth jurisdictions and provides community access to primary legal resources in physical form.
- Our [Teaching Resources Library](#) is located within the Division of Education with materials to assist students with teaching in primary and secondary schools and early childhood centres. We have picture books, school journals, readers and literature for children and young adults in a variety of languages. All staff and students may use these resources.

Art Collection

The artworks enriching our campuses are from the [University of Waikato Art Collection](#), of which the Library are kaitiaki (custodians). We hold over 600 works of national significance by contemporary Māori, Pacific and New Zealand artists. Our Poutiaki Taonga (Art Curator) works alongside academics and students to create exhibitions for display on campus.

Waikato Students' Union (WSU)

The Waikato Students' Union is the voice of the student body on campus. The organisation is governed by a group of democratically elected students who listen, speak and act passionately on behalf of students, and have done for over 40 years. The WSU provides support services and consultation for students, clubs, and class reps. They create full weekly student experience programmes - from regular barbecues through to O'Week festivities - and provide an unfiltered platform for student voice through the multi-award-winning Nexus magazine.

Student Support

The WSU has a few key ways in which they support students at the University of Waikato:

Student Engagement

The Student Engagement team manages a network of over 85 rōpū, clubs, and societies as part of the WSU's commitment to an active campus. That network features clubs from every aspect of the University environment. Archetypal clubs such as debating and mooted societies are now joined by gaming clubs, cultural societies, casual hiking clubs, and a range of religious groups. If students can't find a club that fits them, the WSU Student Engagement team is always available to guide them through the process of making their own.

Student Advocacy

Whether it's tenancy, academic or hardship issues, the WSU provide a free, confidential, "no judgement" advocacy service to ensure students are aware of their rights, processes, and know that someone will always have their back. With a comprehensive list of support partners, including Community Law Waikato and Hamilton Budgeting Advisory Trust, WSU Student Advocacy ensures you get the best advice from the right people.

Student Voice

When the WSU was founded, it was based on the principle of ensuring the student voice was heard, and nearly 50 years later, that still remains their driving principle. With a 12-member board comprised entirely of students, including an elected President on the University Council, a dedicated Vice-President Māori, and a new Tauranga and Pacific director, the WSU ensures your voice matters. The Student Voice team assist in the training of class reps and provide a support service called Reo Taurira, carrying out regular consultations on campus issues and working proactively with the University to provide student-focused solutions. With the WSU we are here to ensure your voice is heard.

Student Experience

The WSU has always felt that the University experience should be more than just academics. They have a dedicated Student Experience team providing daily activities on campus, managing student spaces, and cooking free food. The last few years have also seen them develop inter-divisional competitions, expand Orientation and Reorientation weeks, as well as develop programmes for wellness and mental health awareness.

NEXUS

At the heart of the student experience is Nexus. A student magazine that provides its readers with an editorial resource to discover and challenge ideas about news, music, politics, arts, technology, and general student life. Nexus strives to encompass and reflect student culture in all its diversity.

They're constantly on the lookout for writers, artists, creatives, and media enthusiasts. If you're keen to get involved, simply email: editor@nexusmag.co.nz.  For more information visit the Ground Floor of the Students' Union Building (SUB) between 9am to 4pm (Monday to Friday), visit the WSU website: wsu.org.nz, or email wsu@wsu.org.nz .

Cyber Security Research Group (CROW)

The Cyber Security Researchers of Waikato (CROW) aims to return control of data to data owners, by focusing on research addressing data security from a user-centric perspective. With the emergence of cloud computing technologies and prevalent mobile device usage, we are witnessing the diminishing effectiveness of traditional cyber security approaches such as perimeter defence, intrusion detection and infrastructure hardening. To address this, CROW focuses on six major themes: Provenance, User-Centricity, Visualisation, Economics, Hardware, and Tools and Datasets. Together, these six themes empower the return of control of data to users, thereby reducing reliance on third-party vendors or trust relationships commonly found in most cyber security contracts today.

Formal Methods Group

Established in 1998, this is the first Formal Methods laboratory in New Zealand. The work that goes on in this lab is based on the view that programming is at the heart of computer science. It is also based on the view that, as engineers and scientists, we should use the machinery of mathematics to model and reason about the systems that we build before we build them. This is in contrast with the view that programs should be written by trial and error (usually at great expense and with a high likelihood of failure, judged by current experience) with our users ironing out our mistakes for us at their expense. To this end, The Group is developing languages and tools for modelling systems, for reasoning about those models and for transforming them into code in a way that is guaranteed to preserve meaning and correctness. The Group does not want to build software that usually works – it wants software that always works, and in the way intended by the requirements.

Information Systems and Databases Group

Most of the computer applications you encounter today are in fact Information Systems, that means, systems that manage, store and deliver information to users. Examples are search engines like Google, ticket booking systems, or online stores. Exciting new kinds of applications that ISDB group looks at are mobile tourist information systems, memory-aid systems and systems that notify you about changes, e.g., in web pages or online shops. The Group's latest projects are context-aware systems that deliver information to their users depending on a user's location, time of the day, task, or mood.

Transport Research Group (TRG)

Transport affects many aspects of everyday life. The multi-disciplinary Transport Research Group at the University of Waikato is interested in how:

- Transport fosters a strong and sustainable economy;
- Transport can be maintained in a way that supports healthy environments;
- Drivers might respond to changes in vehicle technology; and
- Research findings might inform decision-making in government and industry.

The Group explore a wide range of different questions in our studies, such as:

- What are public perceptions of connected and autonomous vehicle technologies?
- What policy issues are barriers to more widespread uptake of electric vehicles?
- What are the differences between the ways engineers and the road-using public understand risk?
- How does infrastructure investment in ports contribute to economic development and welfare?
- How can in-vehicle cyber-security help people to access more of their own information about their mobility?

Waikato Public Law & Policy Research Unit

Te Piringa – Faculty of Law at the University of Waikato has an established tradition of outstanding scholarship in Public Law and Policy as demonstrated by the contributions of the Faculty’s founding Dean, Professor Margaret Wilson, and Professor Sir Grant Hammond. Today a significant number of Faculty members continue to have research interests in these fields focused on the Faculty’s founding principles of professionalism, biculturalism, and the study of law in context. Current work in the Faculty covers a wide range of common law jurisdictions, in addition to New Zealand and Pacific Island states, and extends from constitutional and administrative law and theory to giving effect to the principles of the Treaty of Waitangi and Māori and Indigenous governance. The Public Law & Policy Research Unit promotes the widest conception of Public Law and Policy, encompassing administrative law, charity and the regulation of civil society, constitutional law, criminal law and justice, and international law. It was established to fill a clear gap in the interrogation of these policy research areas in an integrated and holistic way.

 11. Candidates are required to maintain continuous enrolment throughout the entire period of their degree.

Personal Programmes of Study Regulations

These regulations apply to candidates beginning their studies in 2022. Candidates who first enrolled in a qualification prior to 2022 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

1. Title

These are the Personal Programmes of Study Regulations 2012.

2. Date of effect

These regulations are effective from 1 January 2013.

3. Delegation of powers

The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the [Delegation of Powers Statute 2014](#).

4. Definitions

In these regulations

programme of study means the selection of papers taken by a candidate in any one academic year for a particular qualification

equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code

restricted papers share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements

a **prerequisite** must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise)

a **corequisite** must be taken either prior to or concurrently with the paper for which the corequisite is specified

internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests

a **field** means a general area of academic study that includes a number of related subjects

a **subject** is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato [Catalogue of Papers](#). A department may offer more than one subject

a **major** means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level

a **minor** means an additional subject to the major and is a requirement of some bachelors degrees

a **supporting subject** means an additional subject to the major, usually of at least 60 points in a single minor subject

a **specialisation** means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student)

5. Application

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6. Admission and re-entry

(1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the

requirements of Section 255 of the Education and Training Act 2020.

- (2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the [Admission Statute 2016](#).
- (3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the [Criteria for Admission to Particular Qualifications](#) and the qualification regulations.
- (4) To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.
- (5) Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.
- (6) In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.
- (7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the [Limitations Statute](#).
- (8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.
- (9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the [Criteria for Admission to Particular Qualifications](#).
- (10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. Enrolment in a programme of study

- (1) The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
- (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
- (3) The personal programme of study of every candidate is subject to the approval of the Academic Board.
- (4) The papers for qualifications and their prescriptions are defined in the University of

Waikato [Catalogue of Papers](#). Before enrolling for a paper, candidates must meet any requirements specified in the relevant prescription unless approved otherwise by the Academic Board.

- (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. **Maximum student workload**

- (1) The normal maximum full-time student workload for an academic year (excluding C trimester) is 120 points.
- (2) For the purposes of calculating workload, a paper that runs for the duration of two full trimesters has a workload equivalent to half of its points value during each of the trimesters in which it is taught.
- (3) The normal maximum full-time student workload for C trimester is 45 points.
- (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. **Completion of a qualification**

- (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations.
- (2) With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.

10. **Eligibility for Honours or Distinction**

In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.

11. **Dissertations and theses**

- (1) The [Dissertations and Theses Regulations 2020](#) governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
- (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
- (3) For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
- (4) A dissertation or thesis must embody the results obtained by the candidate in an investigation

relating to some branch of the subject or subjects being presented, or, with the approval of the Academic Board, shall take some other form proposed by the candidate's supervisors and approved by the relevant Head of School or Dean concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.

- (5) Dissertations and theses are assessed in terms of the points value they represent.

12. **Date for submission of dissertations, theses and research reports**

- (1) The deadline for the submission of any dissertation or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation or research report.
- (2) The deadline for the submission of any thesis will be 11.59pm on the last day of the paper occurrence which completes the candidate's enrolment in the total points required for the thesis.
- (3) Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the relevant Head of School or Dean or delegated authority for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
- (4) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
- (5) Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the relevant Head of School or Dean or delegated authority and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. **Resubmission of dissertations and theses**

- (1) A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the relevant Head of School or Dean and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.
- (2) An offer by a Head of School or Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one trimester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.
- (3) A candidate's acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one trimester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the

particular enrolment period in which the deadline for re-submission falls.

- (4) A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.
- (5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. **Credit - transfer credit and cross credit**

- (1) **Transfer credit** means credit towards a University of Waikato qualification for papers passed at another tertiary institution.
- (2) **Cross credit** means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.
- (3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.
- (4) Applications for credit must be submitted on the online qualification application, together with the prescribed fee.
- (5) Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.
- (6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:
 - (a) Credit from a completed qualification is normally only available towards a bachelors degree.
 - (b) Credit is not normally awarded from a completed graduate or postgraduate qualification.
 - (c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.
 - (d) Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level. Where appropriate, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may, at their discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies deems a paper to be relevant to the candidate's programme of study.
 - (e) Credit will not normally be awarded for 300 or 400 level papers required for a major in an

undergraduate degree.

(f) No paper may count towards more than two qualifications.

- (7) The decision to award credit in individual cases will be made by the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies.
- (8) In making decisions on credit, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies will consider the relevance and level of the papers completed, the regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student Services.
- (9) Regardless of the total number of papers which an applicant has passed at other institutions, the total credit awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.
- (10) In individual cases, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned.
- (11) In individual cases, the Education Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.
- (12) Applicants wishing to appeal a Pro Vice-Chancellor's or the Dean of the Faculty of Māori and Indigenous Studies decision on credit may apply to the Director of Student Services.
- (13) The consideration of an appeal will involve the Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies concerned being requested to reconsider the decision. Further appeals against the outcome of a reconsideration will be referred to the Education Committee for consideration on behalf of the Academic Board.

15. Completion of a University of Waikato qualification at another New Zealand university

A candidate who, based on the assessment of the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Director of Student Services of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.

16. Completion of a qualification of another New Zealand university at the University of

Waikato

A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

Student Complaints Procedures

Preamble

Consistent with its commitment to excellence, the University has adopted these procedures to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, paper convenor or Dean or Head of School or equivalent with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following procedures provide for a more formal process to be pursued.

Complaints considered through these procedures will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to these procedures are set out in the appendix.

Procedures

1. Definitions

In these procedures

complaint means a written statement submitted by a student about a matter that requires formal consideration by the University under the terms set out in these procedures

natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures.

student means a person enrolled at the University of Waikato.

2. Application and scope

- (1) Subject to subsection (2), these procedures apply to complaints about any aspect of the teaching and learning process and the broad provision made by the University to support that process.
- (2) These procedures may not be used
 - (a) where the complaint can be dealt with under the [Higher Degree Appeals and Complaints Regulations](#), [Student Discipline Regulations](#) or the [Assessment Regulations](#) , or
 - (b) to challenge the academic judgement of examiners.
- (3) Depending on the nature of the complaint, these procedures should be read in conjunction with the [Staff Code of Conduct](#), the [Code of Student Conduct](#), and the [Education \(Pastoral Care of Tertiary and International Learners\) Code of Practice 2021](#) .
- (4) No action will be taken on complaints that are anonymous, frivolous, vexatious or not made in good faith.
- (5) A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under these procedures must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.
- (6) Students and staff involved in the consideration of complaints have various rights and responsibilities, which are outlined in the appendix to these procedures.

3. Informal resolution of concerns

- (1) Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.
- (2) A staff member with whom a concern is raised by a student is expected to deal with the matter in an open and professional manner and to take reasonable and prompt action to try to resolve it informally.
- (3) A student who is uncertain about how to seek informal resolution of a concern is encouraged to seek advice from the [Waikato Students' Union Student Support and Advocacy Service](#).

4. Formal complaints procedures

- (1) Where it has not been possible to resolve a concern informally, a student may make a formal complaint.
- (2) A student who wishes to make a formal complaint must submit it in writing, accompanied by evidence, through [My Waikato](#) addressed to the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent responsible for the area in which the action or matter that has given rise to the complaint occurred or, if requested to be considered under the Tikanga Māori procedure set out under section 5 of these procedures, to the Deputy Vice-Chancellor

Māori; if the complaint is about a Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent, it must be submitted to the Senior Deputy Vice-Chancellor.

Preamble

At the time they enrol, students are required to agree to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and co-operatively. Discipline procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

Ethical Conduct in Human Research and Related Activities Regulations

Preamble

Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the Animal Ethics Committee [Code of Ethical Conduct for the Use of Animals for Research, Testing and Teaching](#) .

Students are referred also to the University's [Student Discipline Regulations 2020](#) in this Calendar, and the [Guidelines for Professional Practice and Community Contact in the Conduct of University Research or Related Activities](#)  (see Appendix 1 to these regulations), and the Higher Research Degrees website, as amended from time to time: <http://www.waikato.ac.nz/students/research-degrees/>.

Staff are referred also to the University's [Staff Code of Conduct](#).

Students and staff are also referred to the resources on [Human Research Ethics](#), available from the [Research & Enterprise Office](#).

Ethical Conduct in Human Research and Related Activities Regulations

1. **Title**

These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.

2. **Purpose**

Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.

3. **Date of effect**

These regulations are effective from 1 July 2008.

4. **Scope**

(1) These regulations apply to all

(a) staff of the University of Waikato

(b) students of the University of Waikato, and

(c) any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.

(2) Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Divisional or Faculty of Māori and Indigenous Studies committee.

(3) Under these regulations, all research and/or related activities are required to have formal ethics review and approval.

(4) Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.

(5) Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University *Staff Code of Conduct* and should be consistent with the spirit of these regulations.

5. **Definitions**

In these regulations

research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the

findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:

teaching means teaching in lectures, tutorials, demonstrations, and related educational research

consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant

evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity

publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means

organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, iwi groupings, schools, and professional societies

researcher means the person undertaking research and/or related activities

harm includes physical, psychological, social, economic, or cultural harm to participants

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures

- (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
- (2) Researchers must submit applications for approval for their research or related activity to one of the delegated relevant Divisional or Faculty of Māori and Indigenous Studies committees (see section 22 of and Appendix 2 to these regulations) within the University.
- (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
- (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Division or the Faculty of Māori and Indigenous Studies (see Appendix 3 to these regulations).
- (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not

begin the research and/or related activity again until the necessary approval has been obtained.

- (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. **Responsibility for ethics in research and related activities**

- (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
- (2) If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
- (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. **Value of research or related activities and the public interest**

- (1) A researcher must be able to justify to their peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
- (2) A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Senior Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Senior Deputy Vice-Chancellor (see section 10(7) and section 14 of the [Dissertations and Theses Regulations 2015](#)).

9. **Informed consent of participants**

- (1) Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
- (2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of their involvement and freely agreed to it in accordance with the principles outlined in this section.
- (3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.

- (4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
- (a) A researcher must inform prospective participants of all information relevant to the decision to participate including
 - (i) their right to decline to participate in the research and/or related activities or any portion or any part of these
 - (ii) the form in which the findings will be published
 - (iii) duration and security of data storage
 - (iv) their right to withdraw any information they have provided up until analysis has commenced on their data
 - (v) their right to access and correct personal information
 - (vi) the process for withdrawing information they have provided.
 - (b) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).
 - (c) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
 - (d) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.
 - (e) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between them and the person whose consent is required.
 - (f) A researcher who seeks the proxy consent of another person on behalf of a prospective

participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant themselves in the process and the decision about consent.

- (g) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
- (h) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
- (i) A researcher must inform participants of their right of access to any data that may have been collected from or about them.
- (j) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. Large random sample surveys and informed consent

- (1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
- (3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins
 - (a) the anticipated length of the research or related activity
 - (b) the general purpose of the research or related activity
 - (c) the forms in which the data might be published
 - (d) an assurance that the participant will not be identified in any publication or dissemination of research findings.

11. Field research and informed consent

- (1) 'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
- (2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.
- (3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent

from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.

- (4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. Archiving of data, privacy, storage, and use of information

- (1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
- (2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation
 - (a) participants and informants must not be publicly identified or identifiable without their explicit consent
 - (b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
 - (c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information
 - (d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)
 - (e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
- (4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail
- (5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal

information collected for the research and/or related activity is to be stored.

- (6) Data must not be made available to persons or for purposes that are not named on the application.

13. **Minimisation of harm**

- (1) A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.
- (2) A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.
- (3) 'Harm' in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.
- (4) Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.
- (5) If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.

14. **Limitation of deception**

- (1) Deception of participants conflicts with the principle of informed consent, but in some research and/or related activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.
- (2) Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the research and/or related activity.
- (3) A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.

15. **Social and cultural sensitivity**

- (1) A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.
- (2) Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
- (3) An application for ethics review under these regulations must demonstrate how the

researcher has responded to the advice received from the person consulted.

- (4) Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.

16. **Exploitation of relationships**

- (1) A researcher must not exploit the relationship between researcher and participant.
- (2) A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.
- (3) 'Exploitation' in this context means the seeking or obtaining of money, goods, services, favours, information or relationships that have no direct bearing on the stated research and/or related activity aims or data gathering.
- (4) Where a researcher is a staff member and the prospective participant a student, the researcher must not exploit that relationship and must strive to ensure that the student is not disadvantaged through their participation or refusal to participate, academically, professionally, or otherwise.

17. **Respect for property rights**

- (1) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe legally determined property rights.
- (2) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe culturally determined property rights to the extent possible and reasonable in all circumstances.
- (3) Property rights in this context may apply to land, goods, works of art and craft, images, and intangible materials such as spiritual treasures, music, information, and intellectual property (see Appendix 4 of these regulations).
- (4) A researcher must identify and address any issues associated with property rights and ownership of data at the time they seek informed consent and monitor these issues throughout the research process.

18. **Payment for participation**

A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours, or in any other form of remuneration or form of hospitality appropriate to the engagement, either directly or indirectly, unless the payment is approved by the appropriate approving authority (see section 22 of and Appendix 2 to these regulations).

19. **Professional codes of ethics**

A researcher must ensure that their research or related activity complies with any professional code of ethical practice or standard relevant to the research and/or related activity.

20. **University research and/or related activities in schools and early childhood services**

A researcher involved in research and/or related activities in schools or early childhood services must comply with the [Guidelines for Observation and Research in Schools and Early Childhood Services](#)  (see Appendix 5 to these regulations).

21. Declaration of potential conflict of interest

- (1) A researcher must, in an application submitted under section 4 of these regulations, declare any potential conflict of interest.
- (2) 'Conflict of interest' occurs where a researcher or related party is, or is reasonably likely to
 - (a) obtain an unfair, inappropriate, or unethical professional, commercial, or personal advantage as a result of or in connection with the research and/or related activity
 - (b) be in a position in relation to the activity or the participants that could appear to affect the researcher's impartiality in the research and/or related activity;
 - (c) obtain a direct or indirect pecuniary benefit or interest as a result of or in connection with the research or related activity.
- (3) If the research and/or related activity is commissioned or sponsored, the researcher must ensure that the commission or the sponsorship
 - (a) is declared to the participants and in any published findings

22. Authority for ethical approval and monitoring

- (1) Authority for administering these regulations rests with the University of Waikato Human Research Ethics Committee.
- (2) The University of Waikato Human Research Ethics Committee makes recommendations to the Vice-Chancellor through the Academic Board for the promotion, review, and monitoring of ethical practice in University research and/or related activities and for monitoring compliance with these regulations.
- (3) Each Division and the Faculty of Māori and Indigenous Studies has one or more committees with responsibility at the Divisional or Faculty of Māori and Indigenous level, delegated by the University of Waikato Human Research Ethics Committee, for

Dissertations and Theses

Deadlines for the submission of dissertations and theses for graduate qualifications are prescribed in section 12 of the [Personal Programmes of Study Regulations](#).

General information about the submission of MPhil and doctoral theses is published on the Higher Research Degrees [website](#).

Deadlines for the submission of theses for the Master of Philosophy (MPhil) and doctoral degrees - Doctor of Philosophy (PhD), Doctor of Education (EdD), Doctor of Health Science (DHSc), Doctor of Juridical Science (SJD), and Doctor of Musical Arts (DMA) are determined on an individual basis. Details about terms of enrolment for these degrees are available from Te Mata Kairangi School of Graduate Research.

Students may obtain details about style, general layout, and important conventions to be followed in writing a thesis (referencing, bibliographies etc.) from their supervisor or relevant School or Faculty. The University of Waikato Library also publishes a guide to the presentation and submission of dissertations and theses which is available from the Library [website](#).

Dissertations and Theses Regulations

1. Title

These are the Dissertations and Theses Regulations 2020.

2. Date of effect

These regulations are effective from 1 January 2020.

3. Definitions

In these regulations

dissertation means a piece of written work that reports on the findings of a theoretical or empirical investigation and is undertaken in accordance with the regulations for an honours or first masters degree

first masters degree means a masters degree except for the Master of Philosophy (MPhil)

thesis means a piece of written work undertaken in accordance with the regulations for a first masters degree and equivalent to at least 90 points at 500 level, or a piece of written work undertaken in accordance with the regulations for a Master of Philosophy or doctoral degree. Applicants who intend to integrate a creative practice component with their thesis must comply with the Requirements for PhD with a Creative Practice Component, available from Te Mata Kairangi School of Graduate Research. A thesis is externally examined and if passed is considered to embody research of a kind and standard appropriate for the thesis to be lodged permanently in the University's digital repository, Research Commons, and is publicly accessible (unless embargoed under section 12 of these regulations).

4. **Word limit for dissertations**

The maximum word limit for a dissertation is determined by the School of Faculty in which the dissertation is undertaken.

5. **Word limit for first masters theses**

Unless the Head of School or Dean of the School or Faculty in which the thesis is undertaken approves otherwise in the case of an individual student or subject, the maximum word limit for a first masters thesis is 50,000 words.

6. **Word limit for Master of Philosophy (MPhil) theses**

Unless the Postgraduate Research Committee approves otherwise in an individual case, the maximum word limit for an MPhil thesis is 50,000 words.

- (a) for a PhD thesis, 100,000 words
- (b) for an EdD or SJD thesis, 60,000 words
- (c) for a DMA thesis, 50,000 words.

8. **Submission of dissertations**

- (1) When the dissertation is ready for examination, the student must submit two copies to the relevant Head of School or Dean of the School or Faculty.

- (2) The thesis must be accompanied by a declaration, signed by the student's chief supervisor, stating
 - (a) whether the thesis is, in the supervisor's opinion, ready for examination, and
 - (b) that the thesis embodies the student's own work, carried out under the supervisor's direct supervision, and
 - (c) that evidence of ethical approval or a statement confirming that it is not required, in accordance with the [Ethical Conduct in Human Research and Related Activities Regulations 2008](#) and/or the [Code of Ethical Conduct for the Use of Animals for Research Testing and Teaching 2014](#)  had been provided.
- (3) After a thesis has been examined, passed and returned to a student, the student must, within three weeks, submit a final digital copy of the thesis to the University's digital repository, Research Commons.
- (4) After a thesis has been examined, passed, and submitted in final digital form the digital copy will be lodged permanently in the University's digital repository, and, unless the Deputy Vice-Chancellor Research has approved an embargo under section 12 of these regulations, will be publicly accessible.

- (2) The thesis must be accompanied by a declaration, signed by the student's chief supervisor, stating
 - (a) whether the thesis is, in the supervisor's opinion, ready for examination, and
 - (b) that the thesis embodies the student's own work, carried out under the supervisor's direct supervision, and
 - (c) that evidence of ethical approval or a statement confirming that it is not required, in accordance with the [Ethical Conduct in Human Research and Related Activities Regulations 2008](#) and/or the [Code of Ethical Conduct for the Use of Animals for Research Testing and Teaching 2014](#)  had been provided.
- (3) After a thesis has been examined and passed, a student, before being entitled to have the relevant degree formally conferred, must submit in final digital form, the copy to be lodged

- (2) Embargoes of dissertations or theses, either in part or in full, are subject to written approval of the Deputy Vice-Chancellor Research.
- (3) Embargo of a dissertation or thesis is normally approved only under the following circumstances:

 - (g) if restriction is necessary under the Privacy Act 1993 or the Official Information Act 1982.
- (4) An embargo will be approved only for a limited period.
- (5) If the Deputy Vice-Chancellor Research has approved an embargo, only the author, title, abstract and other meta-data of the full digital copy held by the University may be publicly accessible through the University's digital repository, Research Commons.

Limitations Statute

Limitations on enrolments can be established under:

- section 255(4) of the Education and Training Act 2020 where the Council is satisfied that it is necessary to do so because of insufficiency of staff, accommodation or equipment, or
- section 525(4) of the Education and Training Act 2020 where the Council has established places for foreign students in a programme whose continued availability is dependent on the fees payable by foreign students enrolled in it.

The Council has delegated authority to approve limitations under section 255(4) to the Academic Board.

Schedule of Limitations on Enrolments for 2022

Limitations under Section 255(4) of the Education and Training Act 2020

Ministry-funded enrolments will be limited in a manner that allows the University to meet the Government's expectations with respect to its approved Mix of Provision for the year in question.

Applications from Ministry-funded students who meet the University's published deadlines for applications to enrol, as well as the admission, entry, re-entry and programme approval criteria for the relevant qualifications and papers, will be accepted according to the priority groups listed below until the relevant Mix of Provision target is achieved at the relevant level.

If places are still available after the published deadlines for applications to enrol, Ministry-funded students who have not met those deadlines, but who meet the admission, entry, re-entry and programme approval criteria for the relevant qualifications and papers, will be accepted in order of application up until the relevant targets have been met.

Undergraduate (Bachelors, Undergraduate and Graduate Certificates and Diplomas)

All these groups will be considered in priority order and, within each priority group, on academic merit.

1. Undergraduate returners (enrolled in undergraduate study in the previous year returning to continue an undergraduate qualification).
2. School Leavers (in secondary school in 2018 or 2019) who qualify for University Entrance (UE) or who are eligible for Discretionary Entrance in terms of the Criteria for Admission to Particular Qualifications.
3. Students transferring into degree programmes having successfully undertaken recognised partner pathway programmes in 2019 (including Certificate of University Preparation (CUP) and Toi Ohomai Institute of Technology guaranteed credit programmes).
4. Students who have previously been enrolled at the University of Waikato, returning after a break of up to two years to continue an undergraduate qualification.
Applicants who have qualified for admission to university but who have been away from secondary school for up to two years.
Special Admission applicants (students over 20 without UE).
Other students with UE or equivalent.

Taught Postgraduate (500 level - except 594 theses)

All these groups will be considered in priority order and, within each priority group, on academic merit.

1. Taught postgraduate returners (enrolled in taught postgraduate study in the previous year returning to continue a postgraduate qualification).
2. Students who have previously been enrolled at the University of Waikato, commencing taught postgraduate study or returning (after a gap in study) to continue a postgraduate qualification.
Students new to the University of Waikato.

Research Postgraduate (Doctoral, MPhil, Masters 594 theses)

Because research postgraduate students can apply to enrol at any point in the year, applications will be considered at regular intervals according to the following groups:

All these groups will be considered in priority order and, within each priority group, on academic merit.

1. Research postgraduate returners (enrolled in research postgraduate study in the previous year).
2. University of Waikato Doctoral and Masters Scholarship recipients.
3. Students who have previously been enrolled at the University of Waikato, commencing research postgraduate study or returning after a gap in study to continue research postgraduate study.
Students new to the University of Waikato.

Notes:

1. *In order to be considered within any priority group, students must apply by the relevant deadlines, as set out in the Enrolment section and Change of Enrolment Regulations.*

2. *Within each level (undergraduate, taught postgraduate, research postgraduate), applicants who have not met the relevant deadlines will be considered in the same order of priority as indicated above after all of the students who have applied within the deadlines for that level have been considered.*

[Part 1: General](#)

[Part 2: Authorities](#)

[Part 3: Procedures for Making, Investigating and Resolving Complaints of Student Misconduct](#)

[Part 4: Provisions for Appeal](#)

[Part 5: Reporting](#)

Preamble

At the time they enrol, students are required to agree to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and co-operatively. Discipline procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

Prospective students can obtain information from the Student Centre by phoning 0800 WAIKATO or (07) 838-4007, or emailing info@waikato.ac.nz.  Alternatively this can be done in person by calling in to the Hamilton campus (Level 2 of the Student Centre), the Tauranga campus (Level 1 in the Student Hub) at 101-121 Durham Street, Tauranga.

The Future Student Recruitment Advisers represent the University at regional careers expos,

secondary school career evenings, and other events throughout New Zealand and overseas. They provide comprehensive information, personal advice sessions and campus tours, which are available by appointment. An Open Day and several information sessions are held on campus throughout the year, and details are available on request. International Students

The following information is a general guide for international students wishing to enrol at the University of Waikato. Further information is available on the website: www.waikato.ac.nz/study/international/.

Email: international@waikato.ac.nz .

Admission

All students are required to meet the entry requirements for admission, as set out in the [Admission Statute 2016](#). Applicants whose first language is not English are also required to provide satisfactory evidence of English language proficiency, as set out in the [English Language Requirements for Admission](#). Scores can vary according to the qualification sought.

International students apply for admission online at www.waikato.ac.nz/study/apply

Permanent residents of Australia and New Zealand, Australian citizens, and students from the Cook Islands, Tokelau or Niue who are New Zealand citizens, are treated as New Zealand students and do not need to apply for admission as international students.

Please note that to be eligible for domestic tuition fees, permanent residents and citizens of Australia must be living in New Zealand for the duration of the study. Domestic tuition fees information is available at www.waikato.ac.nz/study/costs/tuition-costs-domestic.

All international students enrolling in an undergraduate programme must hold as a minimum requirement, an equivalent university entrance qualification; as set out online at www.waikato.ac.nz/study/enrolment/undergraduate-international.

Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or foundation courses in order to satisfy these prerequisites. Applicants in this

situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.

Code of Practice

The University of Waikato has agreed to observe and be bound by the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021*. Copies of the Code are available from the New Zealand Qualifications Authority website <https://www.nzqa.govt.nz/providers-partners/tertiary-and-international-learners-code/>.

Students should refer to the Code of Practice for their specified responsibilities and to the International Student Handbook or this Calendar for University procedures and recommendations.

Tuition Fees and Charges

1. International students are required to pay full cost tuition fees. Students should refer to the [Table of Fees and Charges](#) for other fees and charges that may be applicable.
2. New international PhD students may be eligible for domestic fees for their studies. Conditions apply. For more information, see the [Higher Research Degrees](#) website.

New Zealand Immigration Requirements

1. All international students must hold a valid student visa for the duration of their studies. A visitor visa is only valid for courses lasting less than three months in total. Further information regarding the various requirements of Immigration New Zealand (INZ) can be obtained from the Immigration New Zealand website, or the nearest New Zealand High Commission or Embassy.
2. An offer of place at the University of Waikato does not guarantee that the student will be issued with a student visa.
3. International students are required to obtain a student visa before travelling to New Zealand. Students must provide evidence to show they can have enough money to support themselves while they study in New Zealand. The source of fund is considered stable and there are no unexplained lump sum deposits. For more information please see [here](#).
4. The University is required to report to INZ those students who are not fulfilling the requirements of their student visa, which includes completing compulsory course components and passing papers.
5. Full details of immigration requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available from INZ, and can be viewed on their website at <https://www.immigration.govt.nz>.

Pre-paid Tuition Fees Policy

1. As indicated above, international students are required to obtain their student visa and pay their tuition fees before enrolment can be completed. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these

- funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii) completes the first trimester of study and does not enrol in the second trimester of study and they have a student visa valid for one year, with the exception of students enrolling in B trimester then A trimester.
2. All students must apply in writing for a refund of their pre-paid tuition fees to the Director of Student Services Division.
 3. Students are required to supply a verified copy of their passport and student visa, and a copy of their University of Waikato receipt(s) with their application for a refund.
 4. The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.
 5. Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.'
 6. Where a student will be returning to their home country, the funds will be refunded in one of two ways:
 - (a) an overseas bank draft sent to the overseas address provided by the student
 - (b) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party
 7. Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either:
 - (a) upon evidence of a valid INZ visa to remain in New Zealand, or
 - (b) confirmation that INZ has discharged the University of Waikato's duty under the original student visa.
 8. If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

International students who withdraw their application or their enrolment before the start date of their programme will receive a 100 percent refund of pre-paid tuition fees less a \$500 Administration Fee. Students who withdraw their application or their enrolment after the start date of their programme but during the period for deletion of papers (refer to Clause 12 of the [Change of Enrolment Regulations 2012](#), will receive a 100 percent refund of pre-paid tuition fees less a \$2,000 Administration Fee.

Compulsory Medical and Travel Insurance

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand, as stated in the *Code of Practice for the Pastoral Care of International Students*. Under the Immigration New Zealand Policy, this must be at least for the duration of your student visa. Enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by Allianz New Zealand) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium will be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <https://www.waikato.ac.nz/study/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <https://www.health.govt.nz>. The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website www.acc.co.nz.

New Zealand Government Scholarships

The New Zealand Aid Programme (NZAP) is the New Zealand Government's International Aid and Development Programme managed by the Ministry of Foreign Affairs and Trade. Education is vital to the New Zealand Aid Programme's mission of supporting sustainable development in order to reduce poverty and contribute to a more secure, equitable and prosperous world. Scholarships are available to citizens from selected developing countries to undertake vocational training or tertiary level study in their home country, in New Zealand, or in the Pacific region. These scholarships enhance the skills, training and knowledge of individuals, and build their capacity to contribute to the sustainable development of key areas in their home country. The eligibility criteria and application process can be found on: <https://www.mfat.govt.nz/en/aid-and-development/new-zealand-government-scholarships/>.

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for University to University linkages should be discussed in the first instance with the

International Office. Proposals for guaranteed credit agreements need submission of full documentation to the International Office which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case by case basis.

Memorandums of Understanding should also be submitted as proposals to the International Office, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact the International Office with full background information about their proposed visit. The International Office will assist in arranging an itinerary which meets both the visitors' and the University of Waikato's needs.

These are the Change of Enrolment Regulations 2012.

2. Date of effect

These regulations are effective from 1 January 2020.

3. Definitions

In these regulations

the **addition** of a paper, with payment of the prescribed fees

the **deletion** of a paper, with refund of the prescribed fees (the paper is deleted from the student's academic record)

withdrawal from a paper, without refund of any fees (the paper remains on the student's academic record, annotated as 'withdrawn')

change of qualification, major or specified programme.

MyWaikato means the computer system, accessible to enrolled students, which enables them to apply for change of enrolment on the internet.

4. Application

These regulations apply to papers at 0, 100, 200, 300, 400, 500 and 700 levels.

Note: Policies and procedures with respect to change of enrolment for 800 (MPhil) and 900 (doctoral) level programmes are available from the School of Graduate Research.

5. Fees

The fees referred to in these regulations are available online at www.waikato.ac.nz/study/costs.

6. **Teaching periods**

The teaching periods referred to in these regulations are defined in the [Teaching and Assessment Periods 2022](#) section of the University of Waikato Calendar.

7. **COVID-19**

Pursuant to the COVID-19 Public Health Response (Vaccinations) Order 2021 or any University [COVID-19 vaccination requirement](#), the University may delete a paper from a student's enrolments at any time if:

- (1) the student has not provided and maintained a valid Ministry of Health My Vaccine Pass as evidence of COVID-19 vaccination or exemption, and
- (2) the paper requires the student to undertake a future activity that would breach the COVID-19 Public Health Response (Vaccinations) Order 2021 or any University [COVID-19 vaccination requirements](#).

8. **Programme approval**

Any change of enrolment constitutes a change to a programme of study and requires the approval of the relevant Division or the Faculty of Māori and Indigenous Studies.

9. **Procedure for change of enrolment**

- (1) Applications for change of enrolment must be submitted to the relevant Division or the Faculty of Māori and Indigenous Studies that the student is enrolled in for consideration. They need to be submitted through MyWaikato.

- (3) Attendance at classes and submission of items for assessment does not constitute enrolment in that paper.

10. **Timeframe for change of qualification, major or specified programme**

11. **Deadlines for adding papers (with payment of the prescribed fees)**

Policy on the Use of Māori for Assessment

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Divisions or the Faculty of Māori and Indigenous Studies to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato [Catalogue of Papers](#) or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give at least 14 day's notice of their intention of doing so in writing to the Student Centre. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days' notice is given, the material presented in Māori will still

be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.

6. Where a candidate who intends to present material in Māori has given the requested notice of intention, they will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Deputy Vice-Chancellor Māori or their nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Deputy Vice-Chancellor Māori or their nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however, ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the Deputy Vice-Chancellor Māori or their nominee will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall also receive any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the Senior Deputy Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however, practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.
